

TAUPO NUI-A-TIA COLLEGE 2021

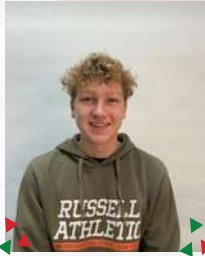

TAUPONAPONA
ISSUE 62

SOPHIE ABBOTT

Known For: Being the person with a smile
Quote: "It doesn't matter what people think about you, just have an amazing time, you only have one chance"
Future Career: Something to do with animals

IVAN ABELE

Known For: Triathlete
Quote: "If you leave it until the last minute, it only takes one minute to do"
Future Career: Pastry maker

MILLIE ADAMS

Known For: Being a millionaire in the making

ISOBEL ALLEN

Quote: "I'll drink to that"
Future Career: "Accountant"

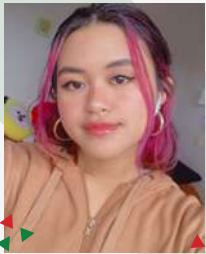

JOSEPH ALLERTON

Quote: "We cannot allow the story to be written for us"

MILA ARNOLD

Known For: Being nice
Quote: "Cwtch <3"
Future Career: Trophy wife

FIONA BADIANA

Known For: Being the 2nd shortest in year 13
Quote: "Bestie we are not the same, you cry over boys I cry over my grades..."
Future Career: Professional sleeper

NATHAN BATHE

Known For: Playing guitar
Quote: "How's it going?"
Future Career: Tourism

JOE BEETSMA

Known For: Being blonde
Quote: "Deadly with an axe."
Future Career: Dairy con with Raj

GRACE BILBIE

Known For: Online shopping during class
Quote: "Hey guys! Why is Ed Sheeran next to me?!"
Future Career: Dancing

RAJ BOLINA

Known For: Prison of the annoyances
Quote: "Tauhara"
Future Career: Dairy con

MICHAEL BRADLEY

Known For: Flash car
Quote: "No my car's not on finance"
Future Career: Dole Beneficiary

REAGAN BRANJE

Known For: Never being on time
Quote: "Sorry, I'm late..."
Future Career: Viticulturist

TYRONE BRIGHTWELL

Known For: Certified
Future Career: Full time trapper

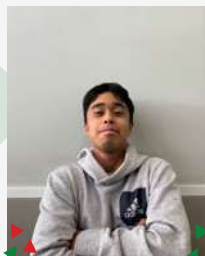

DONOVAN BRISCOE

Quote: "If you don't understand my silence, then you don't deserve my words."
Future Career: Infinite ammo

RHYS BROADMORE

Known For: Being bald

THOMAS CASONA

Known For: Being the coolest Asian
Quote: "Get girls or die trying."
Future Career: Vet

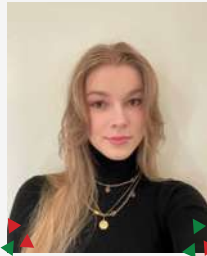

TESSA CASTLE

Known For: Not being at school
Quote: "I'm going home now."
Future Career: Vet technician

ELLA CHRISTENSEN

Known For: The farmies

MIA COLEMAN

Known For: Style
Quote: "34/40 - narcissism test"
Future Career: Author

IDA DANCE

Known For: Being a raging women lover with a bf
Quote: "Drip"
Future Career: Psychologist

BRYCE DOBSON

Known For: My clapped out Honda Civic from 1993 with pink interior
Quote: "Just gotta pop a carby rebuild real quick"
Future Career: Light steel fabrication

ANNELISE DONALD

Known For: Apologising too much
Quote: "Sorry"
Future Career: Doctor

JONTI EDWARDS

Quote: "Poggers"

HEATH ELLIOTT

Known For: Being *shy*

ASHLI FERRIS

Quote: I don't look like Bruno Mars, Bruno Mars looks like me

JAYDEN FINN

Known For: Owing a loud, old, slow green machine
Quote: "Yes Michael's car is on finance"
Future Career: McDonald's Manager

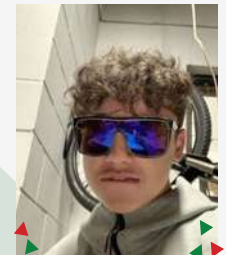

WILLOW FINNERTY JACKSON

Known For: Being Midget
Quote: "I promise I'm not staring college"
Future Career: Pro Basket Ball Player

FAITH FLAVELL-PAINTER

Known For: Ray's Twin
Quote: "To the window..."

RAY FLAVELL-PAINTER

Known For: Faith's Twin
Quote: "Full force no remorse"
Future Career: Dairy con with Raj

BILLIE FLIGHT

Known For: Big Bill
Quote: "On the doll ready to roll"
Future Career: Army

MANO FOURNIER

Known For: Testing patience
Quote: "Shinra Tensei"
Future Career: Baker

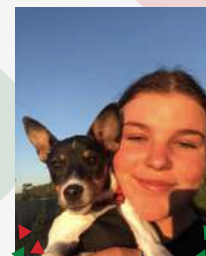

ABBIE GAMBLE

Known For: First person to kill Sophia's car
Quote: "I'm going to live in a van, I don't care what Maddy says"
Future Career: Owning a hotel in Greece

JESSICA GIRLING

Known For: Triplets
Quote: "I'm writing a travel piece"
Future Career: Better than best Kebabs co-owners

BRYLEE GORDON

Known For: Dunno U tell me
Quote: "#crocs4life"
Future Career: Ambassador of Crocs

TOM GORDON

Known For: Being a farm boi
Future Career: Driving big gear/mechanic

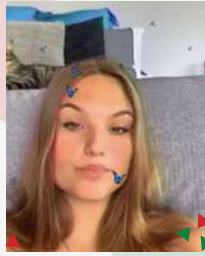

MILES GRACE

Known For: Unit
Quote: "If your actions inspire others to dream more, learn more, do more and become more, you are a leader."-Akoya Seishu
Future Career: Policeman

PAIGE GREEN

Known For: Always needing to go to the toilet
Future Career: Future Millionaire

EMILEE GREGORY

Quote: "Wicked"
Future Career: To be continued

TAINE HAKIwai

Known For: Annoyance one
Quote: "Dumb"
Future Career: Four...

EVELYN HALL

Known For: Shave for a cure
Quote: "Should I go to next period?"
Future Career: Nutritionist

HINAL HALPATI

Known For: Being tiny
Quote: "Mmm, I don't know, I really don't know..."
Future Career: Aspiring basketball player

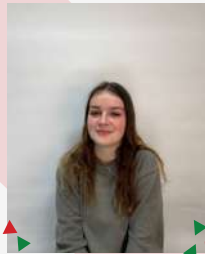

MARIA HANCOCK

Known For: Writing too much
Quote: "Is there a word limit on this?"
Future Career: TBD

ZOE HANFORD

Known For: Being indecisive
Quote: "*silent laughing*"
Future Career: Scientist

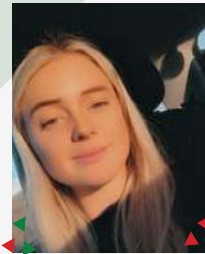

BRIANNA HILTON

Known For: Only turning up for school on dress up days
Quote: #rob #brilovespizza #gilfs #women #attendancequeen #mentallystable #dogmum #gaslightinggirlboss
Future Career: Professional Hayday Streamer

JAMIE HUTCHINSON

Known For: Driving a BMW, speech impediment
Quote: "I hate when I'm on a flight and I wake up with a water bottle next to me like oh great now I gotta be responsible for this water bottle"
Future Career: Thriving

KATE JACKSON

Known For: Fun
Quote: "Wooh"
Future Career: Lady tradie

MADDISON JENSEN

Known For: Blonde brained
Quote: "I am not letting Abbie do that"
Future Career: I suppose I'll be in Greece too then

RILEY KNOX

Known For: Swannie n steel caps
Quote: "Rough rough good enough"
Future Career: Mechanical engineer

OUIJIROU KURIMURA

Known For: Football
Quote: "Everyone's unique, just like" everyone else
Future Career: Scientist

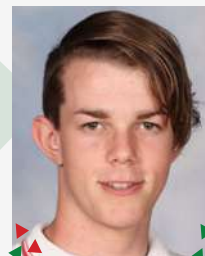

ANTON LAMPRECHT

Known For: Bfeul boy
Quote: "If she leaves you for another, there is always her mother"

HEATH LINDER

Known For: JDM rod knock
Quote: "Toyota Corollas > any other car"

GABE LINDSAY

Quote: "I don't trust anyone, not even myself"

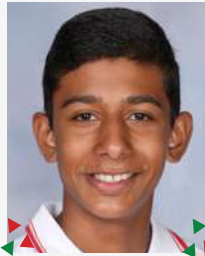

SOPHIA LOGAN

Known For: Triplets
Quote: "I just dropped in to say hi"
Future Career: Better than best Kebabs co-owners

**MIKAYLA
MACMURCHY**

Known For: Annoyance two
Quote: "Dumber"
Future Career: ...Square...

**ISSAC
MATHAI**

Known For: Writing in Cursive
Quote: "I can't read your handwriting - everything"
Future Career: Engineer

**SAMANTHA
MCCLELLAN**

Known For: Porta Potty
Quote: "If I got any cooler I would freeze to death - Kanye West"
Future Career: Artist

**JULIETTE
MCILVRIDE**

Known For: Yr 12
Quote: "Accidentally became a manic pixie dream girl x"
Future Career: Wait what year am I?

**CLAUDIA
MCKINSTRY**

Quote: "Sometimes the grass is greener on the other side because its fake, remember that"
Future Career: P.E teacher

**GREER
MCLAREN**

Known For: Forgetful and deaf
Quote: "Nah I'm dumb I'm just dumb"
Future Career: Milking cows

**DAYNA
MCNEISH**

Known For: Having aloe vera vaseline
Quote: "What the hang"

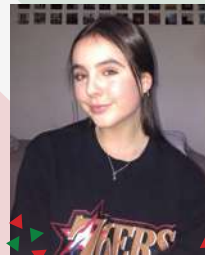

**NATE
MELLING**

Known For: Speed
Quote: "SPEED, I am Speed"
Future Career: Speed

**BOAZ
MELLOR**

Known For: Chunky calves
Future Career: Full time drama room kid

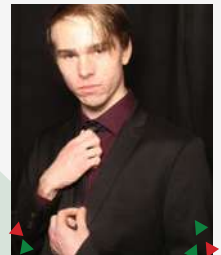

**GRACE
MERWYN**

Known For: Personality
Quote: "Kumara chips?"

**EMMIE
MESZAROS**

Known For: Escaping Putaruru
Quote: "The Office, season 7, episode 22, minute"
Future Career: Concert/music reviewer

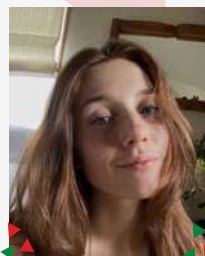

JOHN MORRIS

Quote: (Insert funny quote here)

**JORDAN
MOYLE**

Known For: Eating everything
Future Career: Rugby overseas

**SHAYNA
NASH**

Known For: Party house

**CAITLIN
OFFICER**

Known For: Hyperactive and talkative
Quote: "You can either agree with me or be wrong"

**RHEA
PAALVAST**

Known For: Fresh Princess of Bel-Air
Quote: "Now this is a story"

**ELIZA
PARSONS**

Known For: Triplets
Quote: "I'm here on a spontaneous holiday"
Future Career: Better than best Kababs co-owners

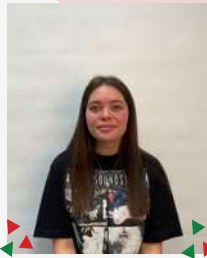

**HUNTYR
PEDEN**

Known For: Taking level 3 P.E
Future Career: P.E teacher

NADIA PEEZ
Known For: Being a lanky being with daddy issue
Quote: "Oats don't agree with me....."
Future Career: Granola mom

SHAYLA PICKERING
Known For: Having gangsta lips
Quote: "Your lips are gangsta"
Future Career: Stay at home daughter

DANIEL PIETERSMA
Known For: Being tall
Quote: AP's Beverages is the best drink
Future Career: Taxi driver

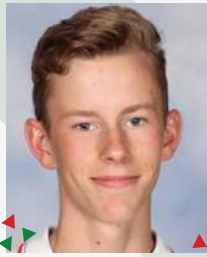

DAISIAH PORTEOUS
Known For: Personality
Future Career: Lawyer

KITTY PRIER
Known For: Sober D
Quote: "No thanks, I'm driving"
Future Career: Uber

BROOKLYN PRISK
Known For: "Snitching #2"
Quote: "If you're reading this in 10 years and my last name is not Grey, I failed."
Future Career: Co-Owner of Grey Enterprise

BEN RAVEN
Quote: "Diamond hands"
Future Career: Full-time billionaire

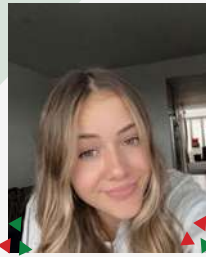

OLLIE REYNOLDS
Known For: Having a sick van
Quote: "I dont want a quote under my picture"
Future Career: Taxi driver

TAEYA SEDGMAN-HALL
Known For: Airbag
Future Career: Stay at home mum

SAMEER SETHI
Known For: The goat
Quote: "Never give up on your dreams"
Future Career: A Businessman

DEANNA SHELDON
Known For: Cuffed
Quote: "To the wall..."
Future Career: Nurse

CHADWICK SIMEON
Known For: Ray's twin
Quote: "Those who don't understand true pain can never understand true peace"
Future Career: Builder

MIA SINCLAIR
Known For: Photo booth photos
Future Career: Prime Minister

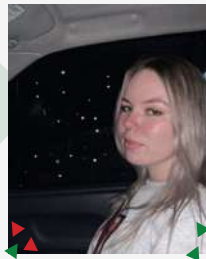

BRIANNA SKIFFINGTON
Known For: Kenzie's sister
Quote: (British accent) "I want a place to go home please"
Future Career: Golfer

KATIE SPARKES
Known For: "Snitching #1"
Quote: "Do not take life seriously. You will never get out of it alive"
Future Career: Accountant for the grey enterprise

LUKE STEYN
Known For: Being tall
Quote: "To the moon"
Future Career: Bitcoin trillionaire

RHIANNON STRANG
Known For: Driving Chloe everywhere even though she has a license
Quote: "This is my only photo in the book"
Future Career: Tattoo artist

CHLOE STOL
Known For: Not having facebook
Quote: "J.S is down bad"
Future Career: Idk let me ask my mum

JOSEPH SUTHERLAND

Known For: Theatre kid (derogatory)
Quote: "C.S is down bad"
Future Career: Poor arts student, donations appreciated

SARAH SWANSON

Known For: Cat lady
Future Career: English teacher

JAYDEN SYKES-HOLLARD

Quote: Yes

KANDICE TARAWHITI

Known For: Not showing up
Quote: "My assessments may not be done, but I am"
Future Career: Busker

ELIJAH TE FONO

Quote: "You catch flies with honey but you catch more honeys being fly"

MORGAN THAKER

Known For: Being quiet
Quote: "If it's not the due date it's not the do date"
Future Career: Something fun

SAMUEL THOMSEN

Quote: "You miss 100% of the shots you don't take" - Michael Scott

MILLIE THURSTON

Quote: "I see fire"

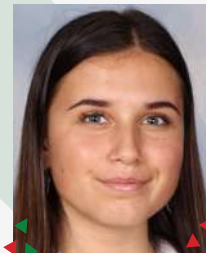

ISOBEL TULETT

Quote: "Wasn't that fun ;)"
Future Career: General practitioner

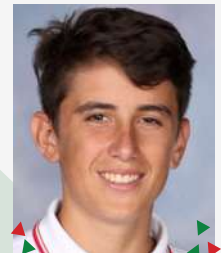

JACINDA VICKERS

Known For: Crashing her car
Quote: "Maccas run...?"
Future Career: Surgeon

AANA WATTS

Known For: Theater kid
Quote: "Shut up, you don't know anything"
Future Career: Gold digger

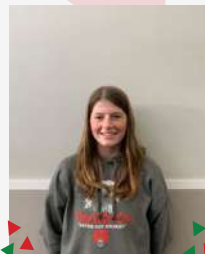

JOSH WHITE

Known For: "Being the man" - Mr Moyle
Future Career: Footy player

TIMOTHY WIGRAM

Known For: Handball boy
Quote: "Sucks to suck"
Future Career: Electrical engineering

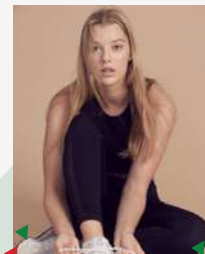

GEORGIE WILSON

Known For: Being honest
Quote: "Go cry quietly"
Future Career: Mil-lie's get away driver

LOUIS WYATT

Quote: "There are no accidents - Master Oogway"
Future Career: Firefighter

BELLE YEOMAN

Future Career: Business woman

PRINCIPAL'S REPORT

Tinei Te mihi nui

Kia Koutou Katoa

It is my pleasure to present the annual report for 2021.

Last year when delivering this report, my opening statement was about the disruption caused by the world-wide pandemic and how the college responded to an unprecedented event called a "lock-down". Sadly, this term has become common parlance in our society with 2021 seeing this country and in turn this community being held hostage by the Covid-19 Delta virus.

This year the lead into the Alert Level 4 lockdown was extremely short and I would like to commend our senior managers, teaching staff and support staff for responding to this in such a professional manner. Our students were well served with the support and guidance they received from our staff, including in some cases door to door delivery of devices.

In stating the above there is no denying that the Covid lock downs continue to have an adverse effect on the academic, cultural, and sporting life of the college. This highlights the importance of individual and organizational wellbeing. Wellbeing is one of the key strands in our strategic plan and this term the college has started to work with the New Zealand Institute of Wellbeing and Resilience on a 'whole-school' wellbeing programme. A growing body of literature suggests wellbeing education programmes can have a positive impact on the way many students 'know and understand' themselves, their peers, and their families. Studies have also demonstrated that students with higher levels of wellbeing are more resilient, perform better academically, report higher levels of self-control and lower levels of procrastination.

Whole-school wellbeing not only involves students but teachers, the senior leadership team, support staff the board of trustees and parents and families of students. While this is a big undertaking the national and local statistics regarding mental health make grim reading and, in my opinion, it is vital that this college focuses on supporting the wellbeing of all its stakeholders.

This year has seen some significant changes in education that will be rolled out over the next few years. This includes the NCEA Change Programme, the Tomorrow's Schools Reforms, and the National Curriculum Refresh. I am aware that for many people they would like to wake up one morning and all these changes had happened, and they had skipped the painful parts. Unfortunately, this is not the case, and the reality is all schools in this country will have to come to the realisation that they can no longer operate the way they have in the past and their curriculums and structures and systems will have to change. As author Kelly Morgan states, "Changes are inevitable and not always controllable. What can be controlled is how to manage, react to and work through the change process." I am confident Taupo nui-a-TiaCollege has the capacity to embrace these changes for the benefit of students now and in the future. This has been confirmed by our evaluation partner from the Education Review Office who indicated our review and evaluation processes, and outcomes are some of the best she has seen among all the schools ERO covers in this region.

Our NCEA results continue to compare favourably with schools around the country. Worthy of mention is the NCEA Level 2 achievement of our Māori students who had a pass rate of 90%. While this is commendable there is still work to be done to ensure we are meeting our obligations under Tiriti o Waitangi in all aspects of school life. As a principal, I want to see all students of Taupo nui-a-TiaCollege leaving this school equipped to take on the challenges life throws at them and with as many choices as possible.

Over the last two decades we have seen the influence the internet has had in education. Our students now have access to an abundance of knowledge from around the globe. This means students no longer must just learn and retain knowledge but be equipped with the skills to find, analyse, and evaluate information to help them make their own connections. The use of IT

has also provided schools with a range of online learning tools that have enhanced classroom teaching.

While the benefits of information technology are manifold in education, ready access to the internet also comes with some challenges, both to individuals, the school, and the wider community. We live in an age where social media is commonplace in everyone's lives. While social media platforms were designed to be sites to help people connect, a darker side to these sites has developed. Misinformation, innuendo, and conspiracy theories have gone unchallenged and believed by large sections of the population and if repeated often enough are taken as facts. Research has shown that anger, violence, and hate generate greater online activity that serve to generate

Peter Moyle - Principal

more revenue from sponsors with no concern for people on the receiving end of such vitriol. I call it the "age of outrage" where people feel they have the right to go online, often without knowing all the facts, if any at all and put the boot in! Our challenge as a school is to ensure face to face interactions are still valued as the best way to communicate. We also need to view a student's ability to identify misinformation as a critical literacy as they cannot navigate the world safely without these skills.

The cultural side of life continues to thrive in the college. Music, dance, kapa haka and drama in the school has provided an avenue for a wide range of students to develop their talents. In all disciplines, we have students performing at the highest level provincially, nationally and in the case of drama the international stage. We are fortunate to have some very talented staff members to nurture our students in all areas of the Arts.

Despite another disjointed season, sport has continued to flourish in the school. As with other years we have individual students and teams achieving national titles in a range of sports. I would like to thank all our coaches and managers for the time they put into supporting our sports men and women.

I would like to conclude by talking about our staff and students. Firstly, thanks must go to the senior managers - Brenda Ronke, Alistair Froggett, Richard Murphy, and Stephen Fowler. Special mention needs to be made of Alistair Froggett who ably led the school in the role of Acting Principal during my sabbatical leave this year. All our senior managers have individual strengths that combine well with the multitude of tasks they undertake. We are lucky to have them, and I appreciate the work they do. A welcome addition to the senior management team during term 3 was Maria Heaslip who stepped in as Acting Deputy Principal and did a sterling job.

I would also like to thank the deans for caring for the pastoral and academic needs of our students while still meeting their responsibilities in the classroom. The professionalism and collegiality amongst this group is a genuine strength in this school.

Taupo nui-a-TiaCollege has always been blessed with very competent and supportive boards and this year has been no exception. I would like to thank board chair Kevin Insley and the board for always having the interests of students and staff at the forefront of their decision making. We are fortunate to have a range of expertise on our board including the considerable experience of Lorraine Kerr who has served on our board for close to 30 years.

To all our staff - I applaud you for the work you do every day and on occasions late into the night! The skills you have in communicating, listening, collaborating, adapting, empathising coupled with bucketloads of patience should never be taken for granted. This school is fortunate to have so many excellent practitioners who give their best for our students. These people are well backed up by our support staff who always keep things running smoothly.

This year three staff are retiring Raewyn Ireland, Yvonne Orr, and Aruna Singh. Raewyn leaves us after 25 years of teaching Japanese in the college. Raewyn, I thank you for your service to the school and the passion you have shown for your subject. I wish you the very best with your retirement. Yvonne leaves the college having taught in the Social Science Faculty for 12 years. Yvonne, no doubt your mountain bike will be getting plenty of use as you make the most of this district's wonderful environment. Aruna is our longest serving Teacher Aide and I thank her for the work she has done with our students who have needed extra support. Also leaving is Stephen Parker, who will be taking up a position at Waikato Diocesan next year. Toni Thomsen leaves us this year to take up a position as Head of English at Te Aute College and I know she will add value to the young men at that school. And last but not least - The principal's PA Julz Satherley has left to take up a position in another school. Julz made a significant contribution to the school during her time at the college and she will be sorely missed.

To our Head Students - you all have different personalities that have complemented each other well. You have done a great job under trying circumstances and I thank you for your contribution to the life of the college.

To all of our Year 13 students, despite the lockdown, disruptions and constant postponements and cancellations you have got on with it and made the very best of your final year at college. As you will see this afternoon there is a lot of talent in this group.

I hope you leave Taupo nui-a-TiaCollege with fond memories, and I wish you the very best for the future.

And finally, I have tendered my resignation as Principal of Taupo nui-a-TiaCollege to the Board Chair to take up a position as a Principal Adviser in the Bay of Plenty and Waikato region in 2022. It has been an honour and a privilege to have led this school over the last 15 years. This school has always been blessed with good Boards, fantastic staff, wonderful students, and a positive school culture. Taupo nui-a-TiaCollege has a well-deserved reputation around the country for producing positive outcomes for its students and having a great heart. I will leave this school secure in the knowledge that it will continue to thrive.

I wish the Board, staff, and students of this fine institution the very best for the future.

No reira, tena koutou, tena koutou, tena koutou katoa

BOARD OF TRUSTEES REPORT

Tena koutou

Nau mai haere mai ki tō mātou rā whakamanawa.

I whaia ēnei taurira tā rātou mātauranga, ki te iti kahurangi.

As we come to the end of 2021, I would like to take a moment to reflect on the year. A lot of things were not really what we had planned but there you go; nothing these days is like the old normal. We live in difficult times. Covid is still rearing its ugly head and likely to do so for some time, but we all continue to do the best for our school community and wider whanau. I would like to thank our tremendous staff, support staff, cleaners, canteen staff and our amazing ground-keepers for the continued effort that they put in during these unprecedented times. The Board is incredibly proud of our school community's resilience, during Covid. Staff, students and whanau should be commended.

Once again, we have had to switch to online learning halfway through a term but the transition was seamless; everything just flowed and I thank the senior management team and staff for that.

In Term 3, Peter Moyle, our Principal, was away on sabbatical, and I really feel for him as it was not the sabbatical he would have hoped for with lockdowns, limited travel etc. In his absence, Alistair Froggett assumed the leadership vacancy, along with Maria Heaslip moving up to a manager's role, and Stephen Fowler to acting DP. These three, along with Brenda Ronke and Richard Murphy, did a fantastic job in Peter's absence. I thank you wholeheartedly for the effortless transition and your continued focus on the school vision of empowering our students to be active participants in an ever-changing world.

On the property front, it was disappointing to see continued delays to our five new learning spaces, all due to unforeseen circumstances. Hopefully, now everything has been sorted and construction can start with classrooms being open mid next year. We have also been allocated funds for a safety perimeter fence and both hall and library roofs to be fixed.

Our Board selections are happening mid next year and I encourage anyone thinking of standing to do so. While it may seem a scary proposition, I assure you it is not. Our Board is made up of many different people from different walks of life and this is why it seems to work so well. I would like to thank my fellow Board members for their efforts this year and for their ongoing support.

This year we said farewell to Jono Park and welcomed Lilja Tinworth as our new Student Rep. Jono is year 13 next year and no doubt will continue to advocate for his student body. Lilja has already shown her ability to grasp difficult situations and present her fellow peers' ideas confidently, not to mention her student reports are excellent! Well done.

On a personal note, I would like to thank Peter Moyle, Alistair Froggett and the entire senior management team, including Maria Heaslip, for their continued support.

Finally to our Year 13 students. You are now at the end of your five-year journey (despite the last two being quite different), and ready to embark on your next stage of life. I wish you well in your endeavours. Thank you for all that you have given to this school and for adding to the Nui spirit. Whatever you choose to do, take the skills you have gained and always remember: 'you never stop learning'. The world is a vastly different world from when you first started here. Take care of yourselves and others, and always be kind.

Kia Kaha

Kevin Insley – Chairman

BOT STUDENT REP REPORT

My time on the Board of Trustees was an amazing experience. I learned valuable life skills that will benefit me when I leave school. I would strongly encourage anyone to apply if they are passionate about getting involved. and if they want us (the students) to get the most out of our school time as possible. Not only can you help make it better for fellow students, it also looks amazing on your CV. This year, I managed to get a uniform review which is about to take place. Many students wanted this, and it is something I want to be remembered for. To Lilja: Good luck and enjoy!

Jono Park - Student Rep

STAFF NOTES

Tena koutou. 2020 - 2021 has brought about many changes to the staff here at Taupo nui-a-TiaCollege. Perhaps most notable is regarding the departure of our school Principal of 15 years - Peter Moyle. Please read about his service to the school on the next page. The school is very privileged to have Kylie Leonard join the Board this year. Her experience and collective knowledge is an asset to our school and we welcome her expertise as she works alongside her Board colleagues and the wider school community.

Several staff members have left the college or retired in this period. Stephen Parker has been a part of the Maths faculty for a year and is heading to the mighty Waikato. Natalija Isailovic, one of our teacher aides, heads back to Auckland. Pam Morrison, one of the school's LSC's, returned to work in the USA. John Clarke - our forever positive caretaker - has followed his heart and moved to the Hawkes Bay to be with the woman he loves - such a romantic! Karen Royce who worked in the school canteen has joined Chef's Compliments. Shani Vartan, our ESOL teacher aide, has made the decision to move to Australia so she can be with her daughter and new grandchild - something that has been put on hold for such a long time due to Covid. The school also farewells Toni Thompson who is heading back to her heart, the sunny Hawkes Bay. She has accepted the HOD of English position at Te Aute college and will take with her many years of experience and wisdom. Michelle Wi has been at AE working with our tamariki for 6 years. She is ready for a new challenge and begins a new chapter in her life. Although not 'leaving', Matthew Bound is shedding his name and reinventing herself as Natalie Bound in 2022 in the Science faculty. Natalie's strength constitutes 21st century values of inclusivity and acceptance. Julie Satherly, former PA to Peter Moyle, has made the move to Mountview School to share her talented skill-set, and her legendary scones! Finally we say our goodbyes to our retirees. Aruna Singh is retiring after 12 years of service to the school. Aruna has been our kaumatua teacher aide here for years of service and she will be missed by many. Yvonne has been a social sciences teacher here for the last 12 years and has finally decided to retire to greener pastures. After 25 years, Raewyn retires to live the "good life" and spoil her mokopuna. We send our aroha wherever you go, our sincere friends.

This year has seen an influx of exciting, new and talented people join our kura. The English faculty welcomed experienced teachers Rachelle O'Leary and Nikki Dowling to their gaggle (or rather "giggle" of teachers). Brett Donaldson is the new outdoor education teacher aide, bringing with him years of outdoor experience and knowledge. Erika Strik has joined Aniek Lenior in supporting the Sport's Co-ordinators role. Elizabeth Ross has joined the Maths Faculty this year from the Hawkes Bay, and is also the pedagogical leader at AE. Zoe Fletcher has been working with the Science faculty in a part-time capacity. Former deputy head girl Waimarie Stone has enjoyed being back as a drama/te reo teacher. It is always so good to see former pupils come back as teaching staff. We welcomed Della Jones to our staff in May who is in charge of the Baytrust. Our SENCO department led by Janet Bishop has also seen new members transition into our Nui whanau. Teacher aides Gillian Stephenson, Krista Randell, Catherine Du Plessis and Kelly Adam, have all hit the ground running this year and have fit in like a glove, working alongside teachers and supporting our students in the classrooms. Louise Brown is our new SENCO administrator - a new role that is truly valued and appreciated by our school community. Leeanne Mason, former Taupō Nui classroom teacher/Dean has moved into her new learning support coordinator role for this period - a job she is thoroughly enjoying. Siobhain Rainbow is our new canteen Manager this year and although we said farewell to Louise's chocolate bread last year, we say HELLO to Siobhain's cinnamon scrolls this year - fast becoming a new Nui cultural staple!

African proverb "It takes a village to raise a child," means that an entire community of people must provide for and interact positively with children, for those children to experience and grow in a safe and healthy environment. To the staff of the Taupo nui-a-Tiavillage, thank you for your committment to empowering our students to become local, national and global citizens in our ever-changing world. You are their champions.

Maria Heaslip

Farewell MR MOYLE

Peter Moyle joined the staff of Taupo nui-a-Tia College as a newly-minted Deputy Principal at the end of Term 1, 1997. He came to us from Waihi College, where he was a successful and innovative Head of Department. His primary and secondary education had taken place in Taumarunui, where his father, Terry Moyle, was a justly famous Principal of Taumarunui High School for many years. So, Peter was returning to his roots in the Volcanic Plateau/King Country area of Aotearoa.

Ten years later, Graeme Ryan (the then-Principal) retired at the end of Term 3, 2007. After going through a necessarily arduous and searching selection process, Peter won the Principal's appointment and has been in the top job for fourteen years. He and Jos have now decided that it is time to move on to the next phase of his career, and it is with thanks for all they have done that we bid them farewell.

Peter has one unvarying focus, and that is that the school and staff exist for the betterment of the students. Young people have only one shot at being teenagers, and Peter believes that the key task of any school is to help and guide them through these turbulent years. With this in mind, it is helpful to consider one or two innovations that Peter encouraged. He invented Spirit Week at Nui. We used to have heavy student absenteeism every year during the last week of Term 2. Peter brought an idea across from Waihi College and initiated a three day festival of inter-house fun and competition for the last days of Term 2. This caught on very quickly and absenteeism fell to almost zero. A week of boredom and winding down was transformed into a week of celebration, and everybody benefitted. Similarly, but in a different area, he encouraged the development of a stand-alone course for capable Year 9 and 10 students to stretch their mental outreach and reasoning skills. He encouraged the school to resource this course properly, and we named it The Enhanced Learning Programme, ELP for short. It ran very successfully from 1999-2018, nearly 20 years, and ex-students still speak of the benefit they received from it.

Peter believes that values are fundamental to the development of young people, and he encouraged Nui to become involved in the Cornerstone Values movement. After working hard with the way the school was organised, and with the staff and the students, we were accredited as a Cornerstone Values school. This means that the key cornerstone values of any civilised society are actively taught and modelled, and is another example of the way Peter puts the students at the heart of what we do.

Peter has been a Principal who is thoughtful and considered in all that he does. He is not prone to hasty decisions, and is not easily swayed until he is convinced of the wisdom of a course of action. He is kind, and realises that there is more than one solution to every problem. He is not linear in his thinking, and considers that diversity is not a fault but a virtue. He surrounds himself with capable people, and doesn't fail to listen to them and to draw on their experience and wisdom.

We are sorry to see Peter and Jos leave us, but we are thankful for their contribution to Nui over the last twenty-three years. The quality of the Principal has a profound effect over time on the quality of a school, and Peter Moyle has not let us down. Farewell and best wishes, you will not be forgotten.

Michael Drake

MOYLE'S MUSIC MADNESS

I'm sure you are all aware of our wonderful 'musical' assemblies. But do you know why we have them?
That's right - Because we care.
If rubbish is left around the school grounds we will continue to be entertained by the great musical tastes of our teachers. You do know we don't have to have these assemblies, don't you? It is all up to you. Don't drop litter!

Mr Moyle has said that "rubbish has improved but it can still be better." A lot of credit has to be given to our Property Manager, Mr Fairgray, for providing all the new bins as they have helped immensely. Also, students are becoming more RESPONSIBLE about the problem and picking up litter without the need for prompting. Remember all you need to do

to stop the great suffering we all endure at interval is to not drop rubbish in the first place!
So, what have we listened to so far?
Shirley Bassey - The Sound Of Music, The Bobs - Accapella Version of 'Purple Rain'

by Jimmy Hendrix, Willie Nelson - Ole Buttermilk Sky, Israele Kamakawiwo'ole - Henehene Kou 'Aka, Mrs Carter's Americas Patriotic Songs.

What is there to look forward to? Songs from The Russian Beatles; The Wombles; The Hamster Dance Song; World Cup Anthems; more America's Patriotic Songs. (if you would like a copy of any of the above items see Mr Moyle for a price list).

PLEASE DON'T DROP LITTER, WE CAN'T STAND ANY MORE MUSIC - AH-HHHH, GOING MAD.

Jenna Buchanan

No eggs for this man!

Keep this man out of the sound booth...

Teachers of the term

Mighty Moyle

Although most of you probably feel Mr Moyle should have specialised in rubbish collection and not teaching, you will also know he is a huge asset to our college - he is Mighty Moyle.

It was his trust and belief in us that allowed the participation and winning of 'Best School Spirit' in the North Island. "The college has great spirit, pride and an amazing working atmosphere. I knew we had a good chance."

It is this blind faith in us all that makes this man special - he loves us all. It was this factor (plus the fact it is his birthday this month) that made Pete stand out as the obvious choice for 'Teacher of the Term'.

Mr Moyle puts extremely long hours into his job as DP. He cares about us all having the best opportunities available, he cares that we achieve to the max., he cares about us having pride in our school and he also likes school to be fun.

Many stressful hours went into the organisation of Spirit Day and although he wouldn't admit to it, we can honestly say

that without him it would never have worked. Spirit Week at the end of Term 2 is something we all look forward to and it was Mr Moyle who introduced this into the school. No doubt with the input of 'Mighty Moyle', this years Spirit Week will be the usual great success.

This award was a long time coming, but congratulations you definitely deserved it Mr Moyle. Thank you for your trust, belief and pride in us and our college.

2002 ODE TO THE MIGHTY MOYLE

Because we care...

- Why do you have to do homework?
...because we care.
- Why do you have to be in class on time?
...because we care.
- Why do you have to be quiet in class?
...because we care.
- Why do you have to pick up rubbish?
...because we care.
- Why do you have to do detention?
...because we care.
- Why do we have Spirit Week?
...because we care.
- Why do we have a school ball?
...because we care.
- Why do you have to do so much work?
...because we care.

- Why do you have to use the pedestrian crossing?
...because we care.
- Why do we have a school yearbook?
...because we care.

AND WHY DO WE CARE?

- Because that's the way we do things around here.
- Because someone has to.
- Because if we care, so will you.
- Because we told your parents we do.
- Because we are paid to.
- Because you are the future, you are the world, you are the Universe... da, da, da.

Boaz Mellor

Before coming to TNT I didn't really know what options and opportunities were available but hitting the junior school as a year 9 it crowded in. Now 4 years later, Head boy, involved with many councils and even captain of the one man tennis team, I finally understand what makes Nui a great school. I come from a small background of growing up in Wairakei and attending primary school there of 260 students and I thought that was big. After entering Intermediate and becoming a student leader and making it into the boys class in year 8 I thought that I could do anything. Then college hit. Coming from a primary school out in the boonies to a 1100 student college I was scared. But that is what made it fun. My biggest regret was not getting involved in more things as a junior. There were Opportunities left right and center for me to do but only stuck with those that felt comfortable. It is ok to do this but to make the most out of your 5 years in college, sometimes you have to step out of that zone and make a leap. I love the relationships with friends and teachers that you form within the school, the teachers give their undying support and some friends even stick for life. Nui has many lessons to teach, you just gotta find the one that is right for you.

HUMANS *of* NUI

Mr Froggett

Believe it or not, when I was younger, I spent most of my weekends in the great outdoors. School was for weekdays and the weekends were for adventure. Camping, walking, canoeing, and skiing were my passion. By the age of 16, I was selected to represent Great Britain for kayaking – it was an opportunity that I learned a great deal from. On my 18th birthday, I was paddling in the Arctic circle – so memorable. Even after going to university, I spent a couple of seasons ski-guiding in Kitzbuhel, Austria. I loved the exercise, the teaching, and the social circles that I made meeting people from all over the globe. However, I knew that I still wasn't ready for a 'desk job' and—shortly after returning the UK—I was selected for officer training at the Royal Military Academy of Sandhurst. Being in the army, meant I could continue my passion for the outdoors and experience a variety of different environments and physical challenges. Although nowadays I am a DP at Taupo nui-a-TiaCollege, I still think the opportunities that you seize and the lessons that you learn outside the classroom are not only memorable but really build your character. So, take every opportunity that comes your way!

SPIRIT WEEK

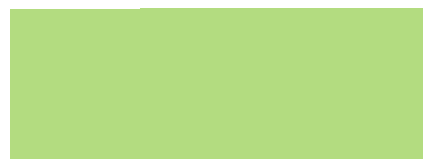

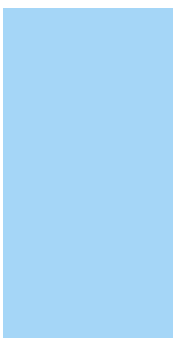

Casey Thorby

I've always been a runner. But I only started training properly in year 9 just because I wanted to win the school's cross country. And the rest is history. I started training further, faster and now I'm competing against some of our country's best runners. The setbacks of Covid-19 put a huge dampener on 2020 where my first 2 international overseas experiences were both cancelled. After these disappointments I knew I just had to put my head down for the rest of the year and finish it on a high. These highs were much sweeter than they would usually be after everything else that had happened throughout the year. The feeling of always being fit and healthy is what has made me thrive in running. I just want to push the limits of the human body. That's what gets me out of bed in the morning.

HUMANS *of* NUI

HUMANS *of* NUI

Humans of Nui is a compilation of interviews about the success of students around the school. As we have many talented individuals, we thought it would be only right to showcase their hard work and dedication in these written stories. Humans of Nui is based on the prevalent Humans of New York (HONY) which is a blog of interviews from the streets of New York. So enjoy these snapshots about members of our college and find out who will be a sporting world champion or maybe the next Hollywood star....

Taine Hakiwai

Kia Ora! My name is Taine Hakiwai and this year, I had the absolute pleasure and honour to be the Deputy Head Boy of the school. I was always an outgoing student, especially with my leadership skills during my thirteen years at school and maybe even during kindergarten. If there were ever volunteering opportunities, I would always take them. Taupō-nui-a-Tia College is full of leadership opportunities! You just need to talk to the right people! From Years 9-13, I was involved in one way or another with the school student council. In Year 9, I was even awarded the 'Award for Awareness of The Physical & Cultural Environment of the School.' I felt very honoured to get this award, especially when I knew that there were so many other students who deserved it just as much. The advice I would give incoming students or students who are currently at the school is simple. Firstly, try absolutely everything that is thrown at you. Easy or challenging. Secondly, listen and respect your teachers. Teachers do not get the respect they deserve. Go to your classes, stay in your classes and learn as much as physically possible. Lastly, surround yourself with people who are going to push you towards greatness. These supportive people could include friends, family and staff members of the school. As you reach your goals, set new ones as you go. This is how you will grow.

LIBRARY

Library Monitors 2021

In all the years that I have been here, we have never had such an enthusiastic group of volunteer library monitors. They are here before school starts (pulling out the laptops & setting up the Issues desk), at first break, at lunchtime (issuing books, making bookmarks, searching for books etc.) and after school (returning the laptops to the COWS). Our core group are very enthusiastic and helpful and we often have to wrack our brains to find enough work for them. Thank you guys! You make our jobs so much easier. Thank you too, to the teachers that come in at lunchtime to supervise the students who are working in the library.

Renata, Tyler, Felicity, Lilliah, Olivia & Charlie

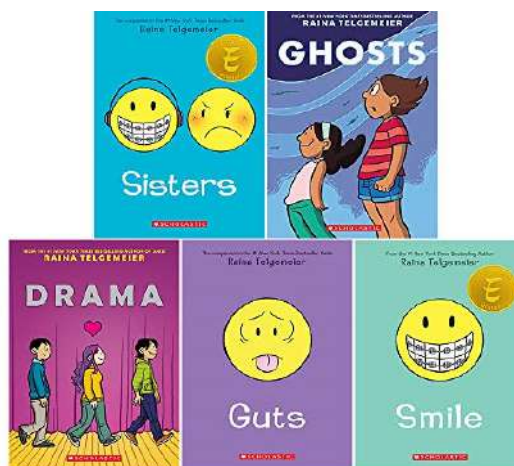

Library News

Horror, fantasy, and dystopia have been the genres of choice this year—maybe due to the ever-present Covid-19 factor in the background. Also, many books in the LGBTQIA range have been issued throughout the year. Stephen King, Lynette Noni, John Hunt (translations of popular Manga series), Raiwa Telgemeier, Alice Oseman, Sarah Maas, Drzka Sheldon, Hajime Isayama are the most popular authors this year.

Book Club

Another quietish year for us—few members but those that attend are engaged and eager to discuss their favourite books. Here are some of our favourite books: The Alice Network, Ella Minnow Pea, The Robert Galbraith detective books, The Art of Taxidermy, Storm, Ocean Prey, A long, long sleep, Explaining humans, This one summer, American dirt, The Tattoo Thief, The ballards, #murdertrending... All of these books may be found in our library. Please check out our new improved library catalogue for more details.

This year, much time has been spent upgrading our catalogue and library homepage with online links to sites and lots of information available for assessments and reading pleasure. So easy to access too! Just go to the student login page on the school website, find the library icon and away you go!

SUSTAINABILITY COUNCIL

The Sustainability Council is passionate about keeping the planet clean and green, so that the Earth is still habitable for generations to come. We focus on the implications climate change has on our future. One of our goals for this year was to encourage sustainable practices into the life at Nui. We have achieved this through many different activities.

The Sustainability Council ran a Green Week at school, as a part of Kids Greening Taupō, to raise awareness about planting native trees to rebuild forests that have been destroyed for capital gains. During this week, we had a rubbish picking-up competition, and the teachers and year 13s dressed in green. In addition, we had a group of students from school and the sustainability committee, who helped set up and plant native trees.

We also had a student-run climate strike as part of the schools march for climate action. We went around Roberts Reserve and picked up rubbish around the town park and lakefront with our climate justice signs.

Throughout the year, the Sustainability Council has made efforts to make a change to Nui's approach to sustainable practices. Unfortunately, due to the COVID lockdown, we were limited in the extent of our influence. However, that did not stop us from having an overall positive impact and we hope for continued change in the future.

Peer Mediation Committee

Peer Mediation Training empowers students to be ambassadors of social justice, student leaders in the school community promoting fairness and respect for all students. These students watch out for harassment and bullying and help students to get the support they may need.

Peer Mediators involve themselves in encouraging and promoting Wellbeing in the College. Volunteering for promotional activities such as Anti-bullying Week, Pink shirt Day and Gumboc Friday. They are role models and drive projects in the College, help water our Gardens and Values of care and consideration for others, kindness, compassion and respect for all.

This year the Upper School Mediators have been training leadership and going towards the Big Brother programme for 2022 where we will see Year 13 students supporting, and starting with the school.

Wellbeing Committee

A focus for the Wellbeing committee was in term 2, where several National Health Promotion events occurred and the committee felt it would be worthwhile to promote and celebrate those events at NuÍ.

Search Day - Youth Week - Nationwide festival of events to celebrate the talent, passion and success of local young people.

Monday 14th with a celebration. The queue will have music, activities, soustak, etc.

12-21st May - Bully-free Week
Games - Toples, snake, egg wavers

17th May - Massaging through First Mediation training

21st May - Pink shirt Day

NuÍ - Each lunch time of this week, carry by various councils a large piece of material, and to draw heads of national anti-bullying - Bully-free week.

Friday 21st May - Pink shirt day for the whole school and all councils with 'change' materials on guard to the day. Free access for counselling/counselling for kids

Week 4 28th May - Gumboc Day Fundraising for Counselling for kids

Friday 28th May - End of school gumboc with uniform

COMMITTEES

Academic

The Academic Committee's biggest event this year was Academic Week. This was a week of fun activities which took place to encourage students to have fun with their learning and get involved. Guessing jelly beans in the jar, getting students involved in debates, and running puzzle questions in the daily notices—these were only a few of our achievements this year!

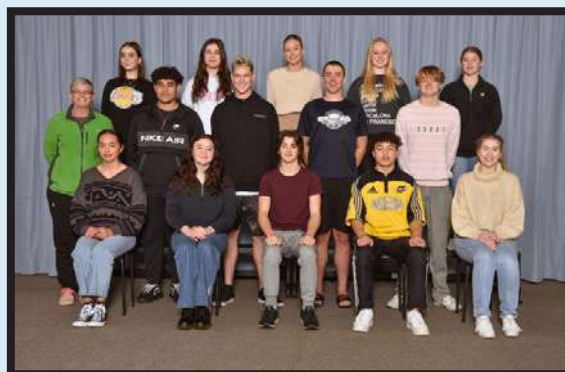

Cultural

Taupō Nui-a-Tia, 2021 Cultural Committee has thoroughly enjoyed spreading school spirit throughout the school. We were in charge of handing out chocolates for everyone for Easter and preparing the Cultural Day of Spirit Week. We also organized a daffodil day and other activities around the school, all with the intention to uplift and enhance the lives of Nui students.

Sporting

As part of this year's Sports Committee, we have thoroughly enjoyed contributing to life at Nui, from running dodgeball in the hall to organizing the Sports Day of Spirit Week. Even with the disruptions of COVID, this year has been filled with fun and activities. We hope to see you get involved next year!

ZENITH

Zenith is all about building confidence in public speaking, mastering the ability to hold an audience and creating emotive and persuasive speeches. The brave souls who make their way to the cozy heated rooms of E block every Thursday morning find themselves creating an amazing sense of unity, sharing stories, experiences, ideas, and often jokes. A typical Zenith session is comprised of:

The compere, who runs the session for the day, introduces speakers as they come up. They typically hold a theme for their interludes while people prepare.

The speakers themselves, who bring any choice of speech along with them, ranging from oral readings, to powerpoint presentations, to workshops and debates.

The table topics, which is a fun, improv heavy series of mini-speeches, intended to improve quick-thinking and adaptability.

The evaluators, who will give positive feedback and constructive criticism for all the speeches given in the session. They play a vital role in ensuring that everyone receives tips and pointers on how to improve their speeches.

Zenith can seem a little daunting at first, but as the year progresses, we always find that the people who were maybe a little more reserved at the start of the the year truly blossom, captivating the audience, and giving amazing presentations. It relies on that sense of mutual respect, that the audience will be good to you, as you have been a good audience member to them. The skills that are gained in Zenith are recognised as official qualifications, ranging from Level One through Four, whereby you must complete certain speeches and roles throughout the year. Employees find this very useful, showing that the people who do Zenith are confident, forward thinking, and personable people.

On the whole, Zenith is truly something special, and it holds a unique place in our school. The people who attend always find themselves coming out the other side a more confident and versatile person, being able to take the skills they learn into the workforce and the wider world. If you think that public speaking is something you want to improve, or you want to make new connections and friends, then Zenith might be for you.

LGBTQIA+

The LGBTQIA+ group is aimed at providing a safe space of inclusion and education for students who support the LGBTQIA+ groups goals. Diversity and student representation are key aspects of the group and events, like Pride Week, assist in this cause. This years focus has been to increase the presence of the group by displaying posters all over the school. The group plans on having their own stall in next TNT market day. Ms Strange and Mr Bound are the teachers involved in helping lead and guide the group. For more information, please check out our Instagram page.

(@Taupōnuipride)

PRIDE WEEK

After much effort from the Rainbow Pride Group, Pride Week kicked off with a great start. There was facepainting, pride flags were handed out, as well as an opportunity to take a photo with a handmade pride picture frame. This event will go a long way to help establish the group, as well as equal rights for all people around the world.

Nui Canteen

@nuicanteen

Hi my name is Siobhain and I manage the school canteen with quite a bit of help. Kazza, Ngawai and Rachel are with me everyday making all our items fresh, and we couldn't do it without the help of our fantastic team of student workers. I began fresh this year. Lou Hayden retired after 20+ years of service and it was quite a scary task to be her replacement, to say the least! I had limited knowledge of the college as my kids went to that other school (Sorry!) On my very first day I was greeted so warmly by all the staff and once we opened to students on that first day of the year, every one of them made me feel so welcome. They have continued to bring me joy everyday with fantastic manners, kind wishes and thanks. Many of them have forged their own relationships with us: "Our Girls", The crocodile boys, Huey, Dewey and Louie, The Rugby Boys, the noodle kids, pretty much all of year 12, and the fantastic year 13s who have enjoyed their privileged position of being able to enter the canteen to make their own choices.

Everyone has taken well to the changes I have made and we have a few firm daily favourites that we struggle to keep up with: Chocolate Caramel Slice and Chocolate Brownie are big sellers, our Pizza Slabs and Subs specials are so popular, and Cookie Dough Pots and Fudge Puddings sell out instantly every time (don't forget to make an order in the morning to avoid disappointment). Many of the students follow our Instagram page @nuicanteen and we have found this a fantastic way to communicate anything new and fresh and the daily specials.

We aren't far off Term 4 now and it will be sad to see our older students move on. However, given my experience of the school thus far, I know that the next year will bring more fun and exciting times.

Siobhain

KAPA HAKA

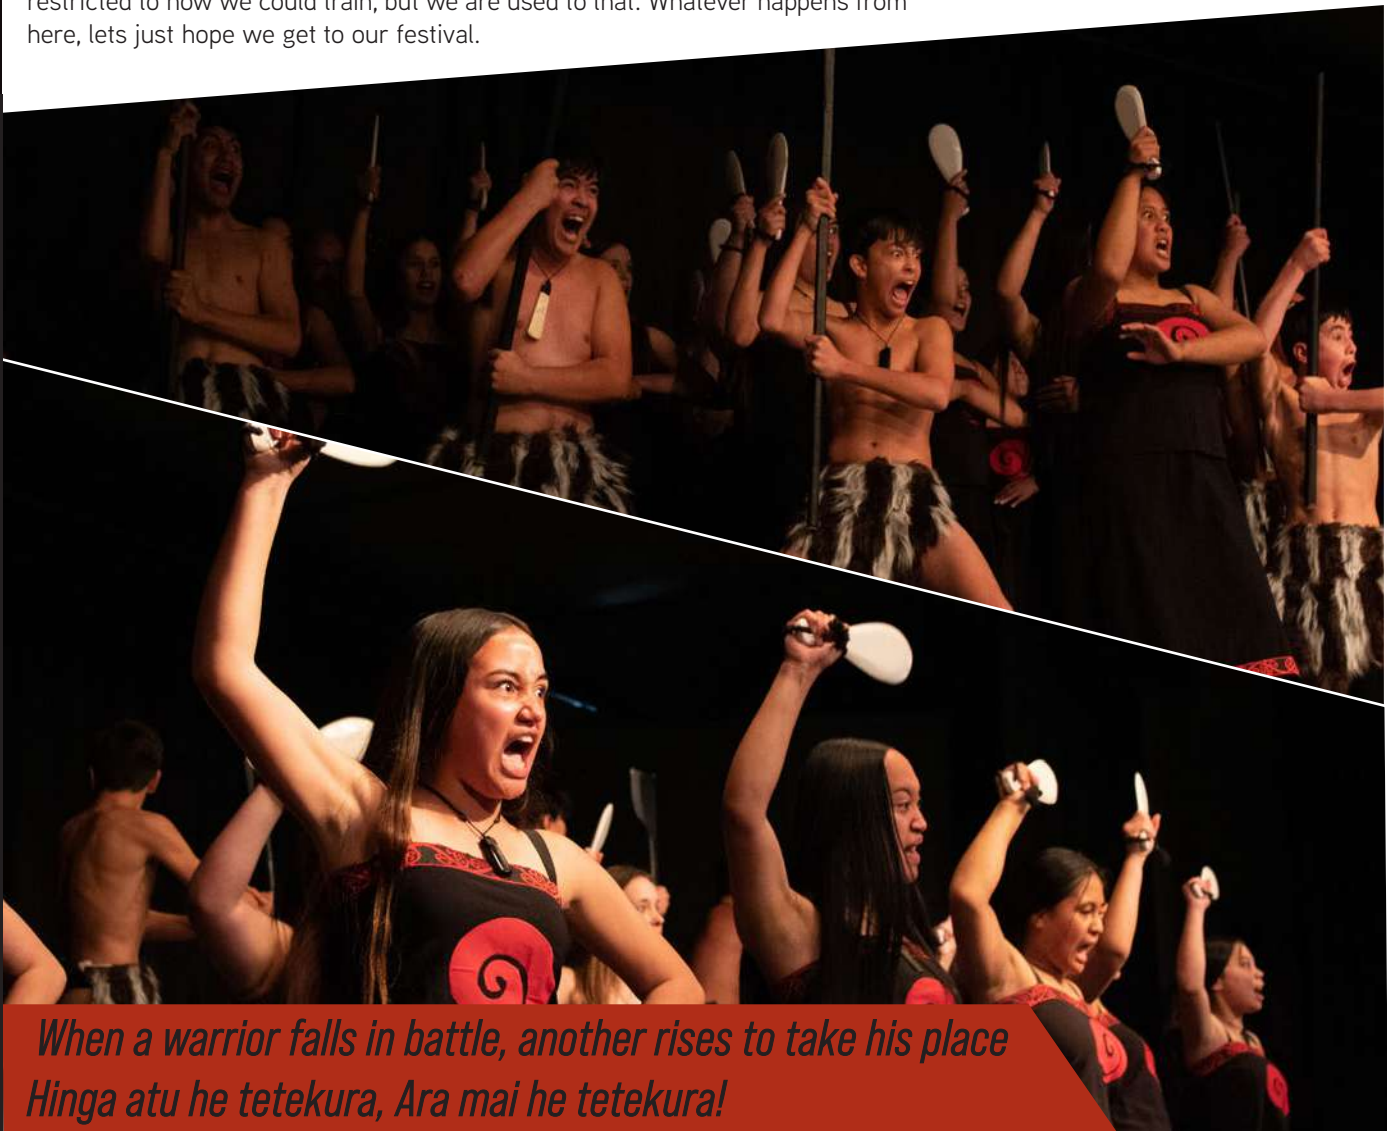

2020 will long be remembered as the Covid year; from a kapa haka perspective, it will be remembered as the nothing year. The year we tried hard to hold things together, the year we supported each other, and the year where we did nothing. Nga mihi 2021!

In early March 2021, a bunch of wide-eyed, naive but energetic young souls arrived at the marae to attend the very first training under the regime of Matua Snow, Whaea Dinny and Whaea Teiria. It was a very warm afternoon and many things were said; like how tough things would be, how demanding and high the skills would need to be and that any lip-singers would be weeded out and moved on. And it was true; Anxiety attacks, asthma attacks and fear attacks combined to put the new generation of Te Awhiorangi on notice "Shape up or move out!". The training was often brutal with no sympathy for the weak, it's just how it is. However, things did mold together; new songs, haka, moteatea, choreography and weaponry. Things were slowly coming together.

2021 was also the year of the dreaded, but famous, Te Arawa regionals; where the best secondary schools kapa haka groups come together to battle it out and then progress on to the Nationals. The current National Champions (Raukura) are from our region so the standard is incredibly high. As we developed, so did the pressure of expectation, of performance standard, both from our tutors and even ourselves.

Every group needs a reality check and this came with dress rehearsals; a real eye-opener and a reality check for those who weren't really up to standard. A couple of hit-outs at junior and senior assemblies helped, but some students take a little longer than others to get there. Finally, the day had come; the regionals. The trip to Rotorua initially went well, the prep and buildup were surprisingly smooth and things seemed real good; until we arrived backstage and the nerves hit! In the end, the team performed to a reasonable standard; but not where we had hoped, but hey, this is Te Arawa.

Much can be said of experience and this is one of those times. The brave have learned (the hard way) and will be the better for it. They have performed in front of their school twice now and have been requested to perform for other local schools as well. We can only hope that they will rise to the occasion and honor their name and reputation. Then... Covid struck again in September and plans to attend the Mana Ariki festival went down the drain. The Tuwharetoa festival was postponed until November and training resumed with a few more personnel changes. At the time of writing, under Covid rules, we were restricted to how we could train, but we are used to that. Whatever happens from here, lets just hope we get to our festival.

*When a warrior falls in battle, another rises to take his place
Hinga atu he tetekura, Ara mai he tetekura!*

For the second year running, our Nui yearbook has been designed by students and facilitated by teacher, Kate Findley. This is a huge undertaking, and the students involved are highly dedicated. Special thanks to Lyndon Hayter and Angus Putt who have overseen the design process and taken charge of teaching InDesign skills to new members of the Yearbook Committee, and to Julia Leusink and Vincent Hall, who have continued on as members of the team. We welcome Kees Manders and Gabby Donald this year and have really appreciated their dedication and creativity. Finally, huge thanks must go to Jack Thomson, who has continued to provide exceptional photography from a variety of events throughout the year.

YEAR

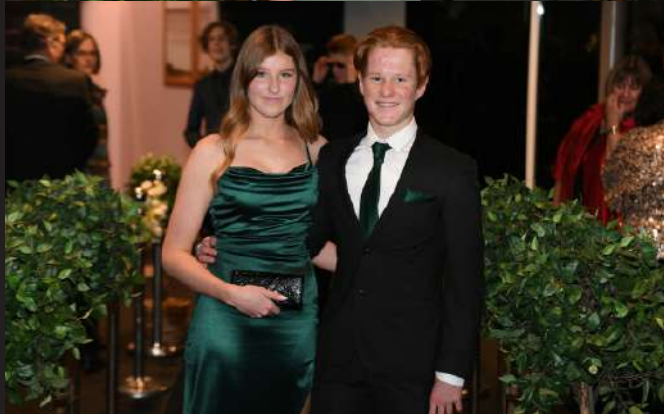

BOOK

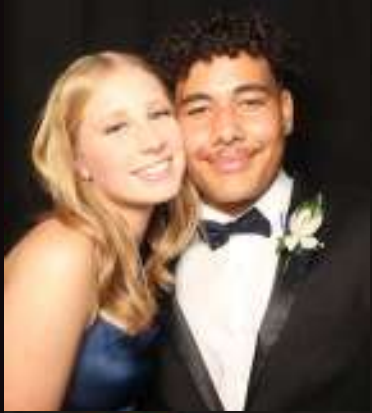

COMMITTEE

These students spend a lot of their own time working on page design, meeting with staff and students to interview for material, writing up material, and getting photos for pages. They attend twice-weekly meetings at lunchtimes, and occasionally at interval breaks to ensure the yearbook is produced to a high standard. They are a cheeky, creative, and enthusiastic group, who have bonded over Domino's pizza and Eminem this year. These students have become really close as a team, and their dedication to producing a quality product is admirable. Roll on 2022 and another awesome year with this crew!

BALL 2021

BALL 2021

It has been another busy year for the English Department at Nui! With just over 23 senior English classes and 20 junior classes, the year has provided many laughs, challenges and opportunities for our students and our staff. Covid snuck back into our lives and continually threatened to uproot our freedoms and progress. Our students however, demonstrated resilience and persevered with their learning which is a testament to their mana!

This year, Rachelle O'Leary and Nikki Dowling have joined the Nui whanau. Both teachers have brought their previous experiences and a lot of subject knowledge to their classes, and are a welcomed addition to the faculty.

The English faculty have enjoyed working with our students and making them the true heroes that they are and will be. We have walked alongside them and hopefully have inspired them to appreciate the world they live in and make the most of every encounter.

We would like to take this opportunity to thank Erana Otimi for her continued professional assistance in our faculty and Ally Murray for her wisdom and liaison with the school library. To Shani for her ESOL support with students and Kate Findley for overseeing the ESOL class. Finally, to Taine Hakiwai - our very own English PA. We cannot wait to see what adventures lie in store for this young man!

To the students of 2022, we are looking forward to challenging and motivating you to unravel the world that you live in. Be curious, be challenged, be inspired.

Kia Kaha, Kia Maia, Kia Manawanui - Bring on 2022

We will leave you with some inspiring words from our departing Year 13 English students:

"I love English because it is the subject that has taught me the most and that will probably be the most important subject towards my future. It is always extremely interesting and fun."

"English is a good class for critical thinking. You get tons of help from the English teachers all the way through each year."

"If you don't want to sound stupid when speaking, take English".

"I love English because of the educational discussions about current events and important world issues. It's good preparation for the real world!"

"English is an interesting class that develops our critical thinking through studying thought-provoking texts."

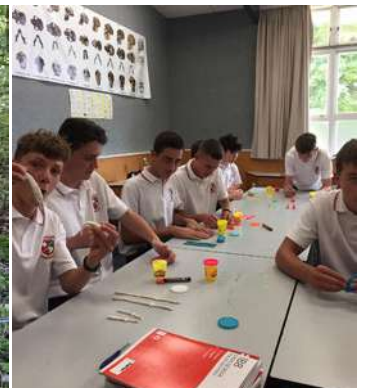

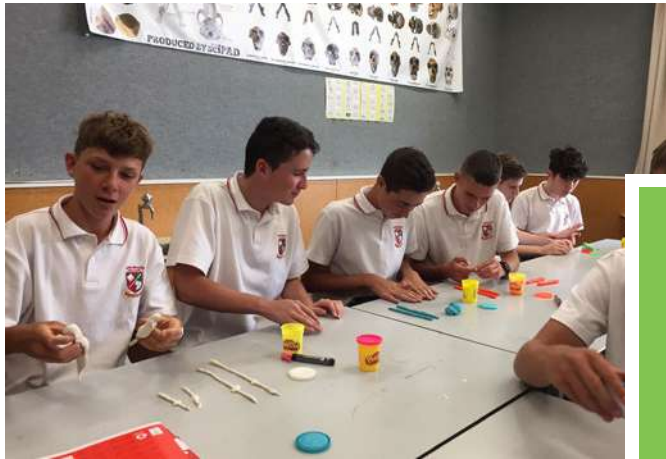

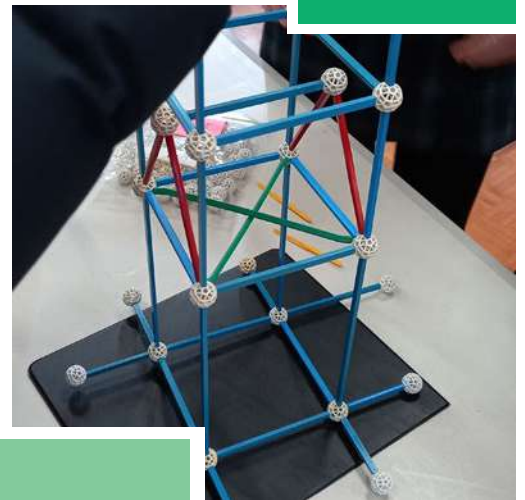

"It's a subject that helps me to make sense of my thoughts. The English teachers encourage you to think, but also listen to the ideas of others, which helps me to think about things more perceptively."

SCIENCE

Into the lab with shoes on we go
Hoping today's lesson includes something to blow
Bio dissections made us feel real sick
Some had to head out the door real quick
In Ag the discussion was about bulls
While physics involves trolleys and pulls
Practical assessments using muscles that flex
Whereas Bio and Ag are about food and sex
Acids and bases make bubbles and gas
Often resulting in new products and a change in mass
Geology investigated earthquakes, volcanoes and rocks
Assessment reports handed in via google docs
New skills are learnt and equipment used
Photos, articles, videos and research perused
New learning is great with flourish and zing
Because ... Everything is science, and science is everything.

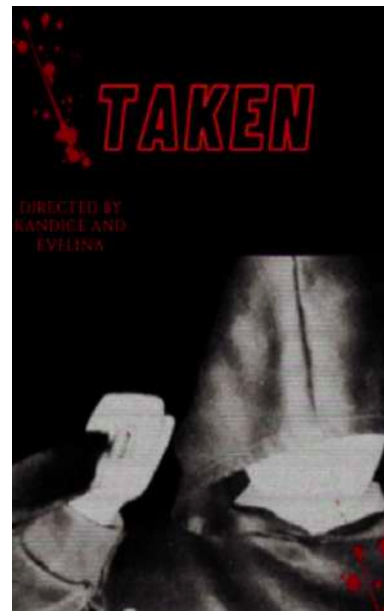

Media Studies

Directed by

Mrs Findley

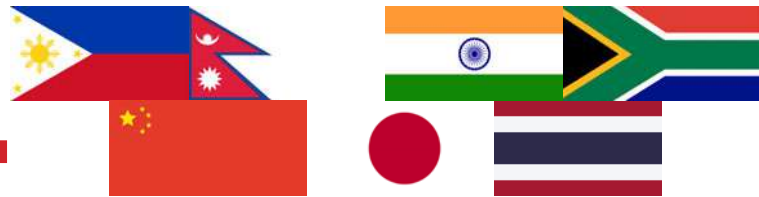

Sameer Sethi

Primary and intermediate were not for me. I used to get very badly bullied—even the Principal there didn't help with the bullying that much. I kind of learned from it, and when I came here in Year 9 I was really nervous. I was not outgoing or confident at all. I was always kind of funny though, and people began to come up to me and say, "Hey, tell us some jokes." Then I heard about the Spirit Week Talent Quest, which I thought was really interesting. I got up on stage and told some jokes, and luckily everyone seemed to like it. I decided to do it the next year as well, and by the time that rolled around, more people were asking me for jokes and I was getting really into it. I began to enjoy the house competitions and spirit week; I really got involved with my house colours. Guys, I understand confidence can be a little hard to get, but you tend to gain it by yourself as you spend time at school. It basically comes to you. I just want to say one thing: if you want to do something in life, do it. If you don't, then in the future it's going to haunt you—"Oh, I should have done that." So do that thing, and never give up on your dreams.

FRENCH

One language sets you in a corridor for life. Two languages open every door along the way – Frank Smith

Bonjour,

Unfortunately, due to Covid, our trip to France was cancelled in 2020 and we still could not offer another date for our students. We really hope it could happen in a near future. International school travel encourages students to explore and embrace other cultures. The provision of an overseas trip helps students to be resilient and learn adaptability - very important skills to prepare them for the future.

Cooking

A language classroom is not just about learning the grammar and the vocabulary. It is also about learning the culture or cultures to better understand the language. We all know how food is a fabulous way to get to understand a culture and its people.

Year 10 Visiting the Local French Bakery - Paris Delice

Students could put into practice what they learn in class. We were very welcomed by Sebastien, the French owner, and his partner. They took our orders in French and they had a little conversation with each student. Les gâteaux étaient très bon!

Antibullying Challenge

Our classes took part in the Nui Antibullying challenge that took place during National Antibullying week. Students counted to 100 in French. What a better way to show your support to anti bullying by putting yourself out of your comfort zone. As language teachers, we are aware of what it is to belong to another culture, what it is to be different, and we support difference and inclusion in our classes.

End of First Semester Year 9 Little Prizegiving

In class, we love to recognize students who excel and we celebrate their success with a little prizegiving. Well done to these student who showed exceptional skills and enthusiasm in learning French.

A bientôt!

SPANISH

Hola todos,

Spanish language is growing at Taupō-nui-a-Tia College, and we had a busy year with a range of fun events and activities. As the world is recovering slowly from Covid, we hope we will be able to organize a trip to Spain or South America for our students in a near future.

National Spanish Dance Project

Like last year, our students took part in National Spanish Dance project launched by the University of Canterbury. This year's song, Resistiré (I will endure) was all about resilience and hope! Our students had great fun learning the choreography at the end of the lesson.

Spanish Immersion Day

This year for the first time, we took our Year 10 and Year 11 classes to Lindisfarne College for a full Spanish immersion day; El día Mexicano. Over 200 students from Lindisfarne College, Hastings Girls' High, Havelock North High, Iona College, Woodford House, Taupō Nui a Tia College and Napier Girls' High School got a taste of Latin American culture through Massey's Spanish Language programme, with support from Mexican and Spanish embassies. The one-day event turned into a Spanish fiesta, which included salsa workshops and Latin American food for lunch. What a great day!

Cooking

What a better or more fun way to learn a language than through food?

Antibullying Challenge

Our classes participated in the Nui Antibullying challenge that took place during National Antibullying week. Students counted till 100 in Spanish. What a better way to show your support to anti bullying by putting yourself out of your comfort zone. As language teachers, we are aware of what it is to belong to another culture, what it is to be different, and we support difference and inclusion in our classes.

Hasta Luego!

Te Reo Māori

It's been another busy year for the Māori Department. All of the year groups have had many pōwhiri bringing on manuhiri to Rangatahi Marae. The year 11 Te Reo Māori class brought on two Taupō Primary School classes learning about tikanga (customs) on the marae. They also had a visit from some of our local wāhine in which the year 9 classes organised the hākari learning about marae manaakitanga (hospitality and caring). The year 12 & 13 have brought on new students and staff as well. It has been awesome to see our taitama (young men) stand on the paepae to kōrero. Kia mau koutou ki te kupu a ō tūpuna (hold fast to the words of your ancestors).

We have also had some fun in the senior classes, bringing back some of the pleasures and pastimes of our tūpuna (ancestors). Playing with poi and tītī tōrea helped students with their hand/eye coordination and to work as a team.

One of the highlights of the year was going to Manu Kōrero Te Arawa Regionals. This year, Takurua Reweti and Ngarea Akuhata represented our school in the senior and junior Māori sections. Students have to speak between 10 & 12 minutes in Te Reo Māori without cue cards. Both students did us proud, with Ngarea coming third in her junior section.

Another annual event was the Whakataetae Reo Māori for kura 2021 Education Perfect Māori Language Week Competition. Unfortunately, this year we only came 8th but our students worked hard to get us our points.

Acknowledgments go to the winners of each year level. Tawhai Donaldson 720 points (Year 9), Maia Martin & Piata Doig 515 point equal (year 10), Zach Harrison 316 points (year 11) and Tymeah Amopiu-Baker 301 points.

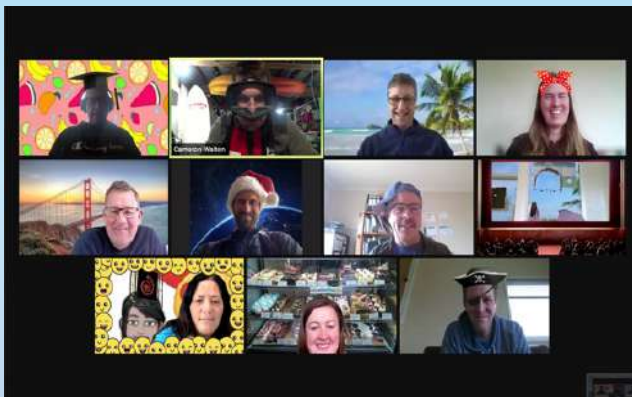

+ - MATHS ÷ ×

It was a fresh start for the Maths Department in 2021! 12 teachers in this group and 5 were new to the department this year. That's 5/12 of the group!...which is 41.6666666666ish%! Over 2/3 of the students at Nui take a maths class... many of which had no choice in whether or not they wanted to take it!

In this department, we try to make sense of the world, find patterns where there seems to be chaos, and predict how long these Covid-19 lockdowns are gonna last! All using data and algorithms! A 90 minute maths class can feel like a joyous rollercoaster that takes less than 7% of your day to complete. On a bad day, that same lesson feels like it drags on for 5,400 seconds. Either way, you feel smarter, more in tune with the world, and happy to be inside on one of those cold and rainy Taupō winter days.

Remember that person who took so much maths in school that they couldn't find a good job? Yeah, we don't either. Viva la maths!

Mr Ramsay

All the way from the United Kingdom where the Knights of the Round Table lived (the round table was invented by Sir Cumference)

Miss Moore

Teaches Food Technology as well (She once spilled all her food in the oven. The directions said, "Put it in the oven at 180 degrees)" Old' Teachers

Miss Venning-Slater

Was asked if monsters were good at maths? "Not unless you Count Dracula"

Mr Murphy

I saw him with a piece of graph paper yesterday..I think he must be plotting something.

Mr Parker

From the Hawkes' Bay - he once owned a chicken that could count its own eggs. It was a mathemachicken.

Miss Ross

Who once had an argument with a 90 degree angle - it turns out it was right.

Mr Petersen

Was heard to say "there's a fine line between a numerator and a denominator...(only a fraction will understand)

Mr Barlow

Sharing with Outdoor Education. (He is afraid of negative numbers...he will stop at nothing to avoid them)

Mr Thompson

I have a few sheep on my Live Style block and to help me, I have a talking sheepdog called Bonza. Bonza put the sheep in the pen for me yesterday and said "all 20 sheep accounted for". But I only have 16? Bonza replied "I know, but I rounded them up"

Mr Farrow

He crossed his dog with a calculator...he now has a friend he can count on

Mrs Tremain

She feels sorry for parallel lines... They have so much in common but it's a shame they will never meet

Mr Walton

He is friends with Mr Ramsey (they are Algebras)

Did you know... A double negative in English is bad, but in Maths it's a positive...

Did you know... There are 3 kinds of people in this world. Those who can count and those who can't.

LINE 6

Taupo nui-a-TiaCollege offers a range of cross-curricular courses to Year 9 students. The focus has been on increasing student engagement by building connections between learning areas, developing a more relevant localised curriculum and developing programmes that reflect our Taupo nui-a-TiaCollege Learner Profile. There are a variety of courses to choose from, each offering different opportunities and experiences. Students took part in a variety of activities such as a survival camp where they had a fabulous time experiencing the outdoors. They visited the Tangiwai Disaster Memorial Site, tramped into the Taranaki Falls through the ice and alpine environment, and endured a short 'solo challenge' in the dark on the slopes of the mountain. Another class spent the day with Didymo Dave at the Hinemaiaia Stream. The students worked the trout trap with him, emptied the pest traps, and learnt about the native bush. There was a wearable arts show, a trip to Aritiatia dam and much more! Their work and experiences were displayed for parents and whanau at the year 9 cross-curricular exhibition evenings.

Design And Photography

Design students have been hard at work creating design concepts for logos, double page spreads, websites, posters and business cards. The year 12 designers have been using graphic designer David Carson as an artist model, the year 13's carving out their own style to use in their design. Next door the photography students are researching and planning photoshoots, working with Ms Lacey who helps them create some amazing photos for their external A1 boards. Mr Lindsey and Ms Lacey are the teachers involved for Design and Photography.

LAND DEVELOPMENT SPECIALISTS

SURVEYING | ENGINEERING | PLANNING

Let us turn your development and subdivision goals into reality, with fast and accurate surveying, civil engineering design and planning advice.

Using the latest technology and equipment, we provide a high standard of surveying services including:

- Topographic, hydrographic surveying and site mapping
- Aerial surveys – Drone (UAV) surveying
- Laser scanning – 3D data capture
- 3D point cloud generation
- Land transfer survey for urban and rural subdivision
- Boundary definition and pegging
- Unit title subdivisions
- Legalisation surveys
- House and civil construction set-out surveys
- Precise monitoring surveys

Ella and Xavier

At the beginning of 2021, we learnt that an average of 16,000 dogs are euthanized annually in New Zealand. After learning this sad fact, it inspired us to create a business that supported dogs that would otherwise be put down. From this, Paws and Claws was born. With a mission to make a dog's world a better place, we strived to offer a preservative-free and affordable dog treat where 20% of the profits were donated to support the rescue and care for dogs throughout New Zealand.

Proudly, Paws and Claws have achieved all of our original goals by home baking our own dog biscuits while donating 20% of profits to the SPCA and Saving Hope Foundation every month. We are not only proud to have achieved our original goals but also to have released a new product, raised \$237 and had a total net profit of \$810.00

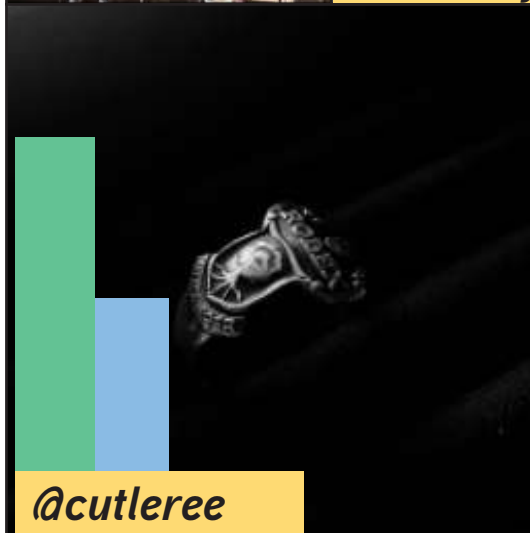

While we know the money raised from the sale of our treats have made a difference, we are still a long way off making a dog's world a better place. As well as donating 20% of profits to our chosen foundations, our next steps are to develop more products, host adoption events and expand our range to include a bigger variety of pets, so watch out for us in 2022!

HUMANS of NUI

ENTERPRISE

For the first time in Nui history, Enterprise Studies saw the launch of our first Year 9 EST class and the TNT Market Day! Every EST student is given the challenge of running their own business, solving real-world problems and hopefully making a profit!

Enterprise is about empowering students to be the future innovators, the future titans of industry, the future employers, the future movers and shakers, the wheelers and the dealers, the influencers and the future leaders!

FOOD AND NUTRITION

Junior students had a taste of basic food safety and practical application of food preparation, nutrition and food technology. They also tried their hand at a MasterChef unit, cultural food and baking.

In the senior class, students planned and prepared delicious food for themselves and others, such as the Kindy kids from down the street.

Year 13 students started with a baked Alaska and then identified and researched a nutritional issue, before implementing and improving the Breakfast Club for the school.

HOSPITALITY

The year 13 Hospitality students had the opportunity to work in a commercial kitchen, preparing and presenting food for themselves and others. They have been taught to make barista style coffees and sold them, and complex sandwiches to very grateful and loyal staff members. In addition to that, they also gained food safety units and gained extensive culinary knowledge and experience.

Year 11 and 12 Hospitality students learned about possible jobs in the hospitality industry, as well as increasing their skills in the kitchen by making delicious baked products. They learned to prepare and present all sorts of meat dishes, as well as finger food. The industry-based units were hands-on and helped everyone to get a taste of what it is like to work in a commercial kitchen.

FASHION TECH 2021

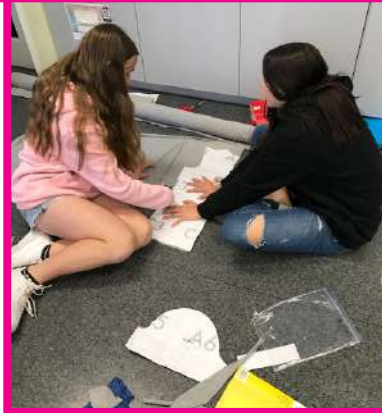

As part of our learning in Terms 2 and 3, our Y11 Fashion Technology students designed and made t-shirts for some lucky Mountview students who were displaying their whāia values.

We went up to Whaea Jodie's class and measured up our students so we could custom-make their shirts.

After many weeks of designing, adapting patterns, prototyping, sewing, unpicking and resewing and adding decorations, we went back to Mountview and gave our shirts to our tamaiti. The smiles from everyone were enough to say it all...

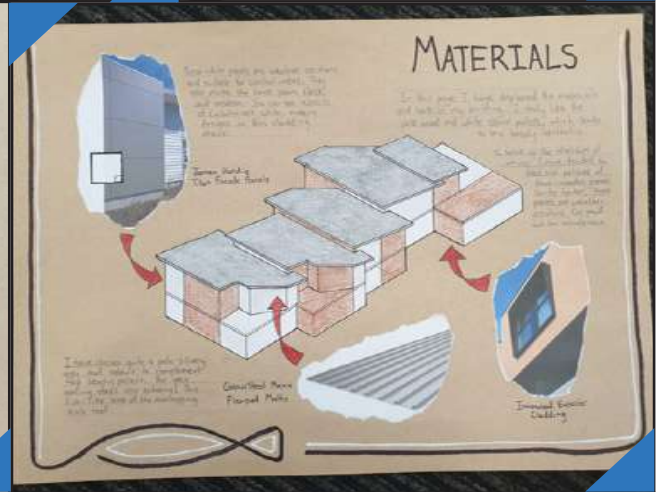

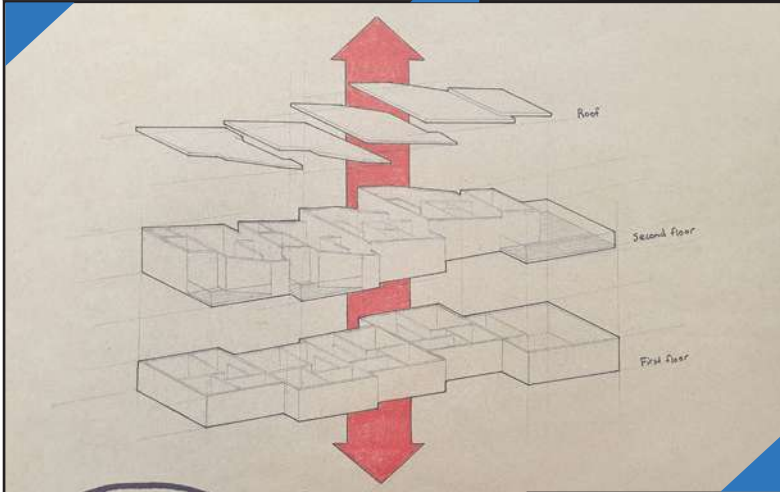

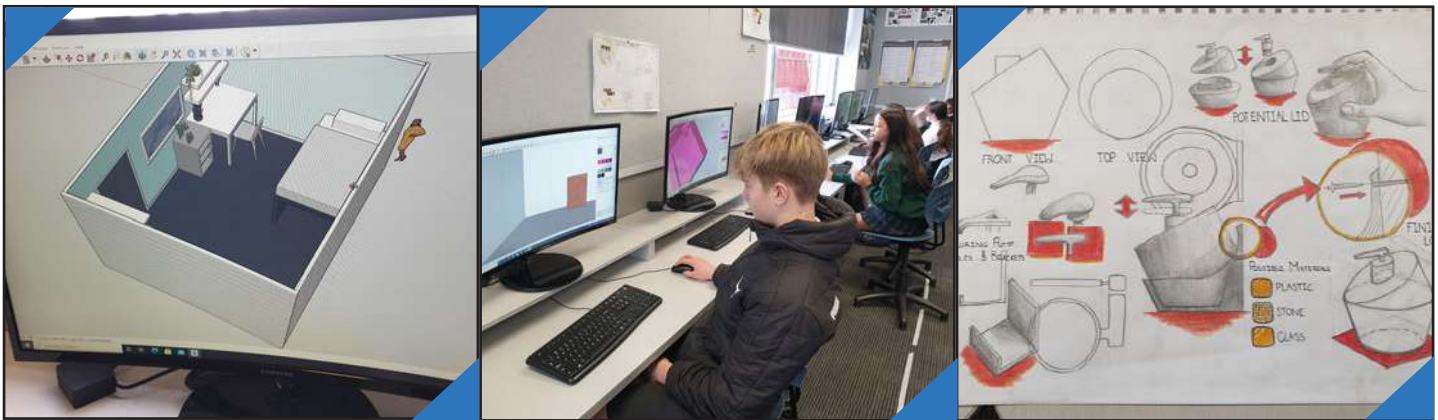

Y10 fashion and textiles technology hard at work. Think it, design it, create and make it. We are making tops this term from our students own designs. We are then going to screen print or vinyl print them to make sure they are unique.

2021 continued to be a booming year in Fashion and Textiles Technology with the number of classes continuing to grow. We were really lucky to introduce another textiles teacher - Mrs Smith - to our department. Together we all journeyed into the world of textiles, screen printing on hoodies, fast-fashion, design and, not to forget, improving our practical sewing skills. Being able to sew is a skill that will set you up for life and opens up opportunities to have side hustles to make some money. Our junior projects have varied from making boomerang bags, to bucket hats, to pj shorts, to t-shirts with individual vinyl designs, to going to the op shop and upcycling a \$3 item. Our seniors have worked on a variety of projects including a sustainability project where we have to come up with a way to combat fast-fashion, making individualised hoodies, skater skirts, crop tops, bikini tops, tailored trousers and overnight duffel bags. We really are having a blast and producing outcomes that we are proud of. See you in 2022 and all that it has to offer - bring it on!!!!

During semester 1, the Year 9 DVC class learned a number of different skills. These included how to create geometry for the laser cutter, where students created some “Wall Art” using a variety of materials. An extension of these skills saw the class designing personal logos which we cut out with the vinyl cutter and then ironed onto tee shirts using our new heat press.

Following on from that project, we then learned about the design process and created a virtual model rocket in Fusion 360. We also created physical models - some of which were 3D printed- which we were going to launch, but a combination of bad weather and a rapidly approaching end of term meant that we did not get to fly these. The semester 2 DVC class has been exploring similar projects as well as learning about designing a ‘transportable office’ and modelling this in SketchUp.

The Year 10 classes, working with Mr Kemsley-Smith, extended their knowledge in design. They created technology art projects inspired by the personal interests of students; everything from models of Big Ben in London to a Wall Light inspired by Disneyland’s castle.

Meanwhile, the Year 11, 12 and 13 classes were busy developing their DVC skills so that they could meet the demands of NCEA. Students got to design everything from garden tools, to children’s toys, to holiday homes, to apartment blocks.

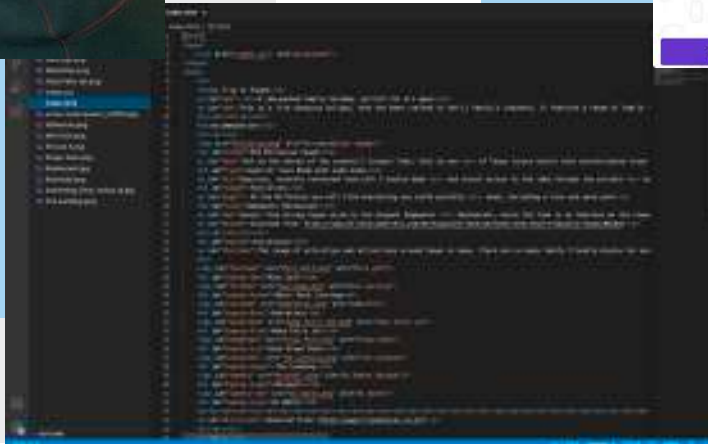

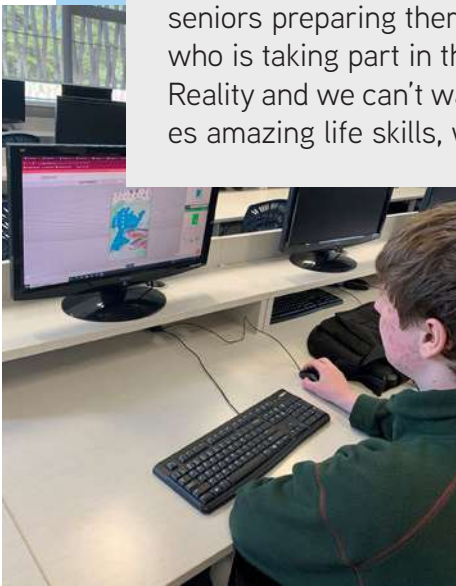

DVC is a great subject area which combines creativity with problem solving and 3D modelling (CAD) skills to create solutions for identified problems or opportunities. You are “only limited by your imagination”!

DIGITAL TECHNOLOGIES

It has been another eventful year for the Digital Technologies

classes here at Taupo nui-a-Tia College, with lots of new learning, projects and challenges along the way. DT is all about using digital systems to create ideas and information, and to define, design and implement digital solutions. Over the past two semesters, each year level has undertaken exciting missions, such as year 9s taking part in The Great NZ Histories Student Game Design Competition (congratulations to Victor Marion who came 1st place), year 10s designing databases, spreadsheets, html webpages and coding microbits in innovative ways, and seniors preparing themselves for NCEA exams. Also, a shout out to Vincent Hall who is taking part in the 123Tech Challenge this year, he is working with Virtual Reality and we can't wait to see his project! DT is an awesome subject that teaches amazing life skills, we can't wait to see what next year brings.

Resistant Materials & Wood

Our Year 11 and 12 students have been hard at work participating in a mixture of achievement standard and unit standard projects. For the Year 11's, this was creating a wooden tray to a set of plans and using specific skills like a dove tail and housed joints. This also included designing and making a piece of furniture of their choice to 'organise their lives' following the design process.

For the Year 12's, this consisted of them finding a client and manufacturing a furniture product to the clients needs, using working drawings that they created. Their first project, a hall mirror, is where the students were required to make the item from a standard set of plans and skills like rebating joints and mortise.

The major project for the Year 12's was to make a piece of furniture, with the brief stating that it had to be some sort of table. This project required students to be competent in the use of portable power tools and adding finishes to be able to produce a quality product to a high standard.

The students have again surprised me with the wonderful ideas they can come up with every year. They have produced some very nice design work, which has been supported by some great practical project work. - John Thiele

Trades, Carpentry & Joinery

2021 has been another very busy year for students completing our Year 13 Trades Carpentry course. They worked as a team with leadership roles to complete both the theoretical and practical industrial Unit Standards from BCITO that are on offer.

As part of this course, students completed the construction of two pre-sold buildings/sleepouts (4.2m x 2.3m). Students also had to design a porch and veranda attachment to the front, which was constructed with all the relevant building code requirements. The units were then pre-sold to local residents or businesses in the Taupō area for a reasonable price.

At the end of the course, students will work with the tools required to build a foundation, assemble wall framing and roofing, apply weather proofing materials, wall claddings, aluminium joinery, roof claddings and flashings. They will learn about the tools, materials, safety, and first aid. This sort of programme would be very difficult to run without the marvellous support (some for many years now) from people and our own Taupō community businesses like Tenon Ltd (Ross Johanson & Darryl Robinson), Mike Prior Saw Milling Ltd (Mike Prior), Bunning's (Nikki McLeod), Vistalite Taupō (Ross Harve), Roofing Industries (Adam Cribb), Hynds (Darryl Watson).

It has been very interesting for me to see how well the students have coped with applying the new building information and techniques that they have been introduced to so far this year.

John Thiele

ENGINEERING

Design it, plan it, manufacture it, test it. It's been another really cool year in Engineering with a great group of students and lots interesting and challenging projects taken on. This year a few students in Year 12 took on the challenge to make small Monkey Bikes from old, worn-out BMX's. They were the first to try this project out, with some mixed results but lots of learnings. There were also a couple of motor powered Drift Trikes, and the BBQs are back in force with some neat versions of those being produced. Tools boxes, Lathe Projects, Smokers, Letter Boxes... and a massive wine barrel on industrial chains... because, well 'wine' not (awesome work, Jordan Nicholson). To the Year 12s of 2021, I hope you have enjoyed your year and the challenges that Engineering has offered. You have learnt well, even if there have been fails, and I hope that you are confident in your skills to take you forward.

There are some great students taking the big step of leaving the College in 2021 and entering the workforce, it is really great to see so many of them transitioning into pathways in this field. Year 13 have all come a long way this year. A big shout out to Tim Wigram who ended year 12 stating that he would never be a fabricator and then built an entire motor bike in 2021. To Riley Knox who continued to push the boundaries and who leaves us

with a Scholarship to continue Engineering next year. Special mention to Cullen Mason, Jordan Ueberberg, Daniel Pietersma, Matthew Stokes, Ivan Abele, Bryce Dobson, Arun Singh and Alex Poudel for the hard yards in getting their completed builds across the line. The smiles on your faces when your products roll off the production line is something we look forward to every year. Fire them up and drive them away! It takes a great deal of determination and hard work to get those projects to completion, so you should be proud. We certainly are!

As you read this in years to come, remember that the world is built and problems are solved in the seeds of Design and Engineering, and Technology. Have the confidence to try.

Mr Kemsley - Engineering.

EMPLOYABILITY
PROGRAMME

TAUPŌ
PATHWAYS
FOR YOUTH EMPLOYMENT

The Licence to Work Programme is all about helping young people to gain the insight, confidence and skills to get work, keep work and create careers. We have heaps of fun, visit lots of places and learn the skills we need to be Set for Life!

2021 Highlights

Team building activities that included a day rafting down in Turangi.

Bike Taupō Volunteer work

Work experience with our very supportive employers: Baked with Love, Euro Scaffolds Ltd, Uber Projects, AJ Hackett Taupō Bungy and Swing, Wairakei Resort, Hammer and Nails, Edge Exterior, Beststart Childcare, E&J Contractors, Concept Flooring, Landcorp, Landscaping and Outdoor Improvements, & TNT Canteen.

Congratulations to the students who have been offered employment:

Krysta Dawson - Baked with Love

Stephen Durham - Euro Scaffolds Ltd

Rawiri Heurea - Edge Exterior

Nathan Bathe - Wairakei Resort

Chase Williams - John McDermott Building Contractors Ltd

Aisla Cranston - Waterside Restaurant

The programme includes:

- 18 - 20 hours of skill-building workshops
- 10 - 20 hours of voluntary work experience
- 80 hours Work Experience
- Safety Course
- Workplace Visits
- Pathway Plan
- Budgeting
- CVs/Cover Letters
- Job Interviews
- Going Flatting
- Drivers Licence
- Buying a House
- Understand your Payslip
- Feedback/Feed Forward
- Insurance
- Kiwisaver etc

TRADES ACADEMY

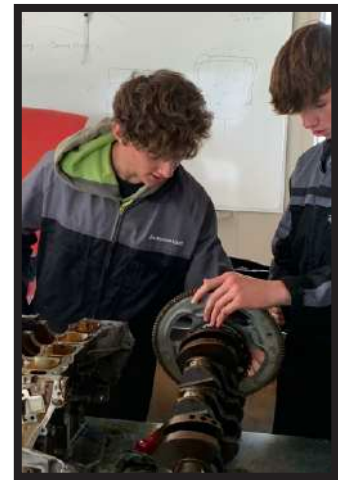

Trades Academy provides students with hands-on trades training options linked to our region's 21st Century workforce needs. The courses range from typical trades like construction, engineering, automotive and hospitality, to 21st century trades like game art, IT support, web and graphic design. The Trades Academy is a secondary-tertiary partnership where students gain tertiary training and qualification while still at high school.

These courses enable students to develop skills for work, life or future study.

GATEWAY

This year, Gateway has provided amazing opportunities to over 70 senior students across many different career paths. These students are taking advantage of what Gateway has offered for 20 years at Taupo nui-a-Tia College, gaining real work experience, on the job learning and the chance to build relationships and network within our community. We consistently see our students gaining so many amazing skills and it's great to see the diverse range of professions.

Gateway provides placements in the trades, and in many further areas including Dentistry, Veterinary, Architecture, and Law and Administration. We have had many students gain apprenticeships and full-time employment through their placements, while others have had the benefit of noting their work experience hours when applying for their future education. It has provided many students a clearer direction of where they want to go in the future and what they want to achieve with their career.

Gateway works because our community supports it year on year. We would like to sincerely thank our employers again for their support this year. These businesses include:

Jenny Nelson	Lake Wide Plumbing	Baked with love
Armoured Engineering	Marae Manuka Farm	Best Start ECE
The Craftmen	Four Seasons	Hammer & Heart
Haimes	Kindergarten	Carpentry
Mainland Engineering	Laser Electrical	Taupō Bungy

Prime Minsiter's Vocational Excellence Award Recipient - Nathan Biland

This year's recipient of 'The Prime Minister's Vocational Excellence Award' worth \$2000, is Nathan Biland. Nathan is a year 12 student who has participated in Gateway for the past two years and also completed a Trades Academy course with Toi Ohomai. Nathan has is to be commended for his enthusiasm and reliability throughout the year completing his Trades Academy course and MITO – Automotive Micro-credential alongside his normal school timetable. Nathan has been very focused and proactive in transitioning into the area of work he is passionate about. We wish Nathan every success with his future.

Acknowledgements

Casey Thorby

James Sloan

We would like to acknowledge Casey Thorby and James Sloan, both year 12 students as our joint 'Top Gateway Student' for 2021. These young men have worked incredibly hard throughout the year in their respective Gateway placements making use of every training opportunity that came their way. Both students are highly regarded by their employers and are commended on their work ethic. Well done and we wish you the best in your future endeavours.

Nikau Pitiroi-Gowling

Luke Cowell

Sam Brasell

Congratulations to Nikau Pitiroi-Gowling for gaining the 'Top Student' award in Building and Construction Level 2, and Luke Cowell for gaining the 'Top Student' award in Level 2 Automotive Engineering this year. Both students attended their respective course through Toi Ohomai, a fantastic achievement, well done.

The 'Most Improved Student' award went to Sam Brasell in Building and Construction Level 2. Congratulations to Sam for the work and effort he has put into this course, it is well deserved.

Chamber Music

We took two groups to the New Zealand Chamber Music Secondary Schools Competition in June and our group, "Wobble", won which is very prestigious! The group, tutored by Richard Paull, consisted of three violins played by Kylie Bathe, Morgan Thaker and Amy Aldridge. Kylie Bathe and Joseph Craggs successfully auditioned for New Zealand Youth Symphonic Winds and joined top students from around the country in Wellington to perform. Aana Watts has continued to excel as a vocalist in numerous competitions around the North Island, and she was also chosen as the singer for a master class New Zealand Association of Singings' conference in Wellington. Centre Stage's popular production, Mamma Mia, saw Aana in the lead role, with Joseph Sutherland, Shane Gregory and our tutor, Richard Paull also a part of the cast.

Rockquest

This year Bri Hilton went through to the final round at Rockquest as a solo artist.

Jazz Band

This year we were invited to perform at the Kiwianis New Zealand & South Pacific 50th Celebration, along with Schmuck Street, and this went very well. Although short, it was exciting to present our music to people from around the country. We are now working on a new programme with some pieces which will be performed this year, and some next year. We have branched out a bit to include pieces like Living on a Prayer (Bon Jovi) and I Will Survive (Gloria Gaynor).

Senior Music

This year has seen some more outstanding performances across our senior classes. The level of performance at Year 13 has been exceptional and, this year, four students are sitting the music scholarship exam with performance. In addition to performing a 15 minute programme the students have to provide written evidence of their programme choice, which involves heavy research and a lot of words.

Bands

We have more bands than ever before, being successfully tutored by Ashley Pirie, Paul Foulds and David Love. Our Year 13 band - Armed Goldfish - has performed at various venues across the Waikato as they won "Tunes of Waikato". Schmuck Street, our Year 12 boys, have taken off this year and played at many venues around our local community. In addition, we have three new junior bands.

Junior Music

This year, we have launched a new programme at Year 9 with some good success and learning curves for Ashley Pirie and myself. One of our aims was to introduce all the students to ukulele, guitar and keyboard, also adding instruments of interest like bass, drums and orchestral instruments. Additionally, they are introduced to GarageBand to write music and we have had some very successful compositions! The Year 9 music students have come to class with great enthusiasm, with many being very capable musicians already.

Our Year 10 programme remains split into technology and theory streams, each running for one semester in duration. Covid has returned to throw us into lockdown so many trips have been on hold with students hoping to head to Napier and the movie theatre. We managed to head to the Midday Music Concert to watch Taupō Youth Wind Band just prior to lockdown! The focus for Year 10 is to build practical skills and introduce basic ideas for NCEA Level 1, and to soak in many genres of music.

Paul Foulds - Guitar and band tutor: we welcome Paul, who comes with many years of musical experience, to our music community at the college. He has loads of fun with the students and displays an excellent sense of humour and work ethic. He tutors two junior bands and teaches guitar to senior students, as well as holding workshops at a junior level.

Shaun Philips - Bass tutor: We also welcome Shaun who is an experienced bass player and techie at Audio Visual People. He lends us wisdom regarding our sound and lighting team.

David Love - Piano tutor: David has successfully tutored our Year 13 band, "Armed Goldfish" through four years of Rockquest competitions and performances. He has also tutored Bri Hilton and Shayna Nash, assisting them in recording solo pieces. Additionally, he successfully teaches piano.

Ashley Pirie - Drums, technology and band tutor: Ashley not only teaches class music, but also takes senior students through the music technology standards, teaches drums and tutors two young bands. This department relies on Ashley's huge amount of practical experience over the years, and success with False Heights, the popular duo with his wife, April.

Alex Wiltshire - Vocals tutor: we are fortunate to have Alex's extensive experience in vocal teaching for our senior students.

Richard Paull - Violin and trumpet: Richard, an experienced musician and composer, took our chamber music group "Wobble" to victory in the NZ Chamber Music Competitions this year. He assists students to sit Trinity College of Music music exams.

Lynn Wigram - Flute and Piano tutor

We were extremely fortunate to be gifted a baby grand piano by Janet M. D. Willis, a resident of Taupō, and close friend of Gillian Sellar-Maude - a retired teacher from the college. The students are thrilled to be able to play on such a fabulous instrument. Plus, it looks great in our classroom!

Students have experienced concerts, competitions and new opportunities this year in music and we can't wait to see what next year will bring.

Drama

"All the world's a stage, and all the men and women merely players".

T'was the 11th of April, and all through the school, TNT students did vibrate with cool! 'Tis time for Sheilah Winn, was announced with a gri,n and 'forsooth'-ing and 'doth'-ing we embarked for the win!

2021 saw us again hosting the SGCNZ UOSW South Waikato Regional Shakespeare Festival. This is where schools from around the region come together to celebrate William Shakespeare's works in a variety of contexts. This year we had two student-directed entries: a 5-minute futuristic, gender-flipped take on Romeo and Juliet (no Romeo in sight and Juli-ay is a guy!) and a 15-minute, modern-day version of Comedy of Errors. A fantastic afternoon of entertainment ensued and the Ugly Shakespeare Company assessors were most impressed with our talent pool here at Nui. The Romeo and Juliet extract won best 5-minute scene and a place at the National Festival in Wellington, while John Brunning-Tate won direct entry to the NSSP (national production week with a 50% chance of being selected for a trip to London's Globe Theatre).

Queen's Birthday Weekend saw two vans, packed full of cast, backstage crew, previous year's London winners, set and massive amounts of pink costuming heading to the Nationals for 5 days of workshops, theatre visits, performances and adventure.

We had massive amounts of fun with much laughing, crying, socialising and overcoming some huge challenges to win three coveted awards: Best Costume Design, Best Student Director (Tayla), and a KAM Talent Agency Contract (Ella Brown). Ella was also selected from the Nationals to participate in NSSP which gives another student an opportunity to go to London.

It's been an eventful year for the drama whanau at TNT, with a plethora of drama events enriching our lives. We've seen visiting theatre groups such as the "Ugly Shakespeare Company", and we've produced all sorts of theatrical storytelling, from year 9's Line 6 recordings from the "Eyes of the Gods" course to our live shows from the senior drama courses. Not only that, but we hosted the SGCNZ UOSW South Waikato Regional Shakespeare Festival, which saw us win a place at the National Festival in Wellington.

At year 11, Kiwis Come Out at Night is the first live performance many drama students partake in, and is also their first dip into what it's like being on stage. Various extracts are rehearsed, learned and performed in front of a real audience (this year it was Once on Chunuck Bair, Eating the Wolf and The Woman Who Loved a Mountain). In 2021, the year 12 and 13 drama students took on a combined performance assessment which played over two nights. Kiwi playwright Jean Bett's wrote a feminist take on Shakespeare's a Midsummer Night's Dream called Revenge of the Amazons which allowed our seniors to demonstrate their more refined dramatic prowess and up the challenge of performing their first full live play.

OUTDOOR EDUCATION

This year the staff of TNT Outdoor Education have thoroughly enjoyed getting our students out into our local environment and on many adventures. We have endured lengthy tramps in all kinds of weather, kayaked, mountain biked, rock climbed, abseiled, visited the snow, climbed mountains, and generally been as active as possible. Our philosophy is creating opportunities for students to engage with learning in, for, or about the outdoors, which has allowed students to learn, grow and build confidence and resilience. This has definitely been the case again in 2021!

We are blessed to have brought on the services of Matua Brett Donaldson as our ODE subject specialist. He has easily fit in with our department and he has already proven himself a wealth of knowledge and all around top man - Welcome Brett! To our other staff, thank you for all your tireless efforts this year. The time you spend away from your own families giving our ODE family such amazing opportunities does not go unnoticed and is gratefully received.

TREMAINS

Remains Real Estate Limited
Company No. 18849427

This course always begins with a number of different level of dancers enrolled, so our first priority is to establish relationships and learn side by side. Class leaders were welcome to take charge when student-led assessments were to begin, and by the end of their semester every dancer performed on a professional stage together. 2021 gave our year 10's two opportunities to perform to audiences over 400 people. Show Quest took place in Hawkes Bay and was performed to a wider community, then Fabulous invited our dancers to open their Hospice Taupō fundraiser. This was a corporate event and our team were honoured to assist in opening.

HOCKEY

TNT 1ST XI HOCKEY GIRLS

The Taupo nui-a-Tia1st XI Hockey Girls had a season filled with hard work and determination. The team kicked off the season with a bang. Beginning with a weekend tournament, the girls were lucky enough to have Nga Tawa travel down from Martin to play them. Having not played a game together yet, they were fresh meat, especially after having a successful previous season and then losing three top players! Despite this, the girls brought it all and left it all on turf. Winning the first game against Nga Tawa (3-0) was worth the bruises and scraped up knees. From here the girls headed into the BOPSS hockey competition. Throughout the season they travelled to Rotorua and were up against some tough teams.

The Div.1 competition began slowly, with a few losses here and there, but the team managed to pull out the occasional, well deserved, win. However, regardless of the score, they always found themselves back at McDonald's, the team's tradition. Moving into the second division of the season, the girls had grown and gelled well as a team. They were very fortunate to have Mike Rohloff as their coach. The knowledge and skills that he passed down were put to show in the last games, with the team playing some of the best hockey they'd seen all season. At this point, it looked like they were going to peak at exactly the right time for Tournament Week. Seeing all the hours of hard work and training pay off was rewarding. However, the girls were ripped off from what would have been a week of great hockey and memories when it was announced that covid had struck again, and they could no longer travel to Hamilton for the Mary Clinton Cup.

Despite missing out on tourney, the girls had an unforgettable season. Although the results didn't always go as planned, it's the performance that matters, and the girls always performed well. They kept their heads high, with no hockey-sulks to be seen. The girls did us proud with well structured, clean games of hockey; their attitudes were always in check and heads were always in the game. They couldn't have got to where they did without the exceptional coaching from Rolly and the occasional tips from Mup, Phil and Liam.

A huge thank you is owed to all of you; the girls were very lucky to have your support and encouragement. To Rolly, in particular, thank you for keeping your cool on the sideline. Also a big thank you to the parents for the transport and your support on the side. Shout out to Sue G for keeping the team well managed over the past 2 years. Everything was always well organised without a fuss. Thank you all for all your hard work! To the hockey girls I am proud of all of you. You all have great potential and next year will be your year!

TNT 1ST XI HOCKEY BOYS

The Taupo nui-a-Tia1st XI Boys came into the season with their heads held high as the team had been very successful in previous years. This year was to be seen as a rebuilding year as they would take 7 new boys into the team of 14, making them one of very few teams without year 13 players. Led by a core group of Hamish Cameron as captain, Douglas McIvor, Sam Brasell and Thomas Fox as senior leaders, the team was eager to impress.

They played their first round of hockey in the Bay of Plenty A grade, in a pool with Rotorua Boys, Rotorua Lakes and Western Heights. After some ups and downs in the pre-season, the boys buckled down and managed to win their pool quite comfortably. This meant they qualified for the semi finals against local rivals, Tauhara College. After a disheartening first 5 minutes the boys were down 2-0 but, putting on an incredible display of hockey throughout the rest of the game, they were able to bring it back to an unfortunate 3-2 loss. The team came away with many positives and only few negatives. The loss meant they would play off for 3rd against Rotorua Boys 3 days later. A tired team went out and gave a hearty performance against Boys High, coming away with a 1-0 win to secure 3rd place in Bay of Plenty.

This team played one more round before tournament. They were able to go into the last game in the round-robin with an impressive 3-1 record. The last game was time for redemption as they came up against their "old friends", Tauhara. The boys went into the game determined to win, and it showed as they dominated the first half going up 1-0. They faced a solid return by Tauhara, who were able to make it 2-1 after a strong 3rd quarter. Despite this, the boys came back even stronger in the 4th quarter and showed that they really wanted it and were unlucky not to come back. Unbeknownst to the team, this would be the final game of 2021 as Covid-19 would mean a cancellation of Tournament Week. This came as an obvious disappointment to the boys as they had built up a playstyle that would make them very competitive at tournament.

A massive thank you to our managing staff Aniek Lenior, Corban Nicol and Nikki Brasell. We would not have achieved all that we did without your ongoing commitment and support. Another thank you to all the boys who gave this season your absolute all. I hope to see all of you at Trials next year.

Hamish Cameron

OTHER TEAMS TNT 2ND XI HOCKEY BOYS TNT 2ND XI HOCKEY GIRLS TNT DEVELOPMENT HOCKEY

This year our coaches team was great, and everyone was prepared to work for each other. Our Development Team that mainly consisted of our junior players has been amazing this year, keeping their heads up even when they got pummeled by much bigger kids. In the last round, they started winning all their games and through great commitment and dedication they were making a chance to take the win in the C-grade. We also would like to thank Empower Fitness who kindly sponsored our new players shirts for this team! We would like to thank all people involved for their time and love of the sport. Jonty Garlic, Steve Giles, Jared Nicholson, Lou Branje and Kynan Harrison, you have been amazing, and we could not have done it without you guys. Let's bring on a full season and tournament in 2022!

NETBALL

The Junior A Netball team have enjoyed a great 2021 season. It was a shame we had the Covid blip right at the end, as the team were looking forward to playing in the final. Despite this, the team ended up at the top of the table, winning their respective grade.

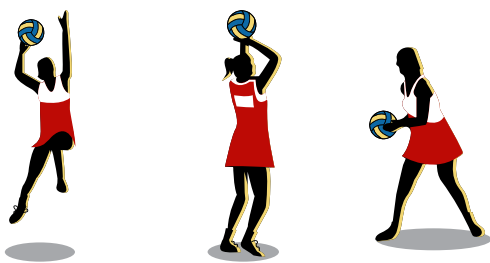

The year was full of great learning for all of the girls, especially the year 9 players who have not experienced playing against adults. Their competitors were fair, tough and an excellent challenge to further develop these young players coming through.

Special mention goes to our most valuable player Ella Ravudi - a stunning young year 9 superstar in the making! Her defensive skills impressed all that had the chance to watch her display outstanding skills. Also to Leah Kilmister, our most improved in this team. Leah stepped out of her normal GA position and took the helm of Centre this year, guiding play superbly. The remaining girls were outstanding and should be very proud of the development they have made.

This team bonded beautifully throughout the season and have made some lifelong friendships. All eyes are on playing for the prems - their role models doing just that for these young girls - role modeling fair play, perseverance, resilience and grit. Making the prems will be a definite goal for many of these players.

A few huge "thank you(s)" must go to our Academy and Premier teams for umpiring our games throughout the season. Much love and respect also to Rachel Carson, the team manager who kept all of us well informed throughout the season. And finally, a huge thank you to our whanau who supported the girls each week, come rain or shine. Your unwavering support is part of our success this year.

It was a pleasure and privilege coaching this amazing group of talented youth. I look forward to watching you all further develop and progress your skills. Bring on 2022!!!

As the 2021 Taupo nui-a-Tia Premier season ends, we would like to firstly give a huge thank you to our supporters for being at our games every Saturday and for coming along this journey with us. Secondly, to Pak N Save Taupō for sponsoring us with our new training tops, as well as the school supplying us with our new dresses and jackets. Lastly, to our biggest supporters who we can't thank enough: our coaches and Manager who did all of the behind the scenes work with getting us to where we needed to be and pushing us to our limits.

We had a pretty good season this year, winning the majority of our games in Taupō and also winning our pool at our pre UNISS tournament. It was a shame this had to come to a halt as covid decided to make changes within our Taupō tournament, postponing our finals for 3rd and 4th against a challenging team and cancelling UNISS, which was a disappointment for all of us.

With the 2021 season not finishing off with a gold medal in our Taupō tournament, this is something for all of us to reflect on for next year's season where we can come back stronger and fitter.

PHYSICAL

EDUCATION

YEAR 11

The two Year 11 PE classes began the year with a very competitive Flag Football tournament. Teams dressed up and competed against each other as part of their first internal standard displaying interpersonal skills both on and off the field. This was a great opportunity for relationships to build within classes. Students then moved into training for the annual Year 11 triathlon in term two. For many students this allows students to step outside their comfort zone and participate in their first triathlon. This year the winner of the Year 11 Triathlon was Sasha Parize-Baker.

YEAR 12

At the beginning of the year, all three Year 12 PE classes travelled over to Papamoa to partake in a leadership camp based around their internal assessment, involving 80 Taupō Intermediate students. The purpose of this camp was for the Year 12 students to take the intermediate students through ABL activities to help strengthen their own leadership qualities. Over the three day period the students completed ABL activities, surfing, sandcastle building, and beach games. The camp was an overall success and resulted in many memories and friendships being made. A big thank you to Mrs Clarke for once again organising this fantastic camp for our Year 12 PE students.

YEAR 13

YEAR 13

Our Year 13 students have had another action packed and successful year in 2021. Starting with our annual Paddle Boarding camp in Ohope, our students worked extremely hard to refine their paddling skills and participate in Estuary races. This camp is always a highlight, from the biomechanical theory lessons, to the annual quiz night, surfing, a sing off, social dance and much more! Unfortunately, Covid played havoc on our plans yet again, preventing us from participating in the Tough Guy/Gal challenge - though we were fortunate enough to have the support of Empower Fitness and FitZone to allow our students to experience training towards an event. Thanks, as always, to our lovely students who have worked hard to leave us as "Physically Educated Students". Mrs Axtens and Mrs Walker wish you all the very best for the future!

Girls Basketball

This year, TNT fielded 2 teams in the Lake Taupō Basketball Leagues consisting of a year 9 team in the Junior Girls League and a mixed team of year 10-13's in a Women's League. Due to flooding and them having no gym, we asked the Tauhara College Girls to join us for training. Everyone got on so well that they decided to play with us. The Junior and Senior teams had a good season with lots of improvements for both teams.

The highlight of the season was the opportunity to work with two Tall Ferns at a one day Girls Got Game Clinic at our school gym. Thanks heaps Lake Taupō Basketball for organising this clinic, and to Tash Lenden and Alyssa Hirawani for sharing your basketball skills and knowledge with us.

Well done girls for taking on the challenge of 100 layups for anti bullying. Dressing up in pink and doing 100 layups was an awesome way to show your support.

Ngā mihi nui (big thanks) goes to our referees. Without you, there is no game. At over 100 games Emily Mortimer, over 50 games Tiare Kapua, and Tyeast Aramoana just off 25 games. Tūmeke ladies :)

Also a huge thank you to our coaches, Tony Strange and Whaea Steph. Also a big thanks to mama bear, Tania Mortimer, for managing the senior girls this year. Ahakoa he iti noa, he pounamu (Everything you have done has been of value).

EQUESTRIAN TEAM

The year started off promisingly. Our first event was the Bay Of Plenty Interschools Show Jumping held in Edgumbe. We sent 3 teams to this event. At the end of the day when scores were added up Taupō came away with one team placing third overall and another winning the event. Next competition on our calendar was the North Island Secondary Schools 2 Day Event, the team consisted of Julia Leusink, Rory Mackintosh, Taryn Drysdale and Amber McLaren. It was a well run event with 39 teams, although Taupō didn't have a podium finish, everyone achieved personal goals and represented the school well. Our last competition for the year was one of the St Peters Show Jumping series. Unfortunately, the Covid virus and subsequent lockdowns disrupted so much, and competitions ground to a halt.

Farewell to our senior riders, Emma Rose, Tessa Castle and our team Captain Greer McLaren. Thank you for your years of riding for the team and always displaying our CornerStone Values. We will miss you.

ADVENTURE RACING

Adventure Racing appeals to students who enjoy working in a team and pushing their physical and mental capabilities, all while trying to locate controls over extended periods of time. All events are different, with some having time restrictions anywhere from 60 minutes to 12 hours, to multi-day events to mystery activities. Adventure Racing involves multiple disciplines (trekking, mountain biking, kayaking) while navigating your own route through farmland and bush, although not all races give much route choice. It is appealing that it is not one set course for all, and part of planning and strategy is working out what is best for your team.

This is the second year that Adventure Racing has been offered as a more structured sport at our school. After the success of our first year, it has not been surprising that our numbers have grown, which is exciting and adds to the experience for the students. At the time of writing this report, our squad had attended and had great success at: Katoa Po, Macpac Rogaines, Go-4-12 Adventure Race, Hillary Challenge Qualifier, and Soaked in Adventure Race in Whakatane.

Ultimately, the sport has continued to encourage students to learn how to respond to new and changing environments, as well as how to 'read' their teammates and support them through tough times. With so many easily accessible outdoor activities in our local community, it is not surprising that our students have had great results and continue to learn from their experiences while building more confidence.

Olivia McLeod

Boys Rugby

2021 saw TNT Rugby back in the Bay of Plenty Competition with the 1st XV admitted into the 1st Division after being undefeated through the 2020 Season, and a successful pre-season program.

This has been the youngest 1st XV side yet, with 11 Year 11 players in the side. With this in mind, we set ourselves a number of goals, one of which was to make top 4 and the semi finals. The signs were positive as we began to rack up some wins against some good sides, through both the preseason and the regular season. A tough 1 point loss to Katikati in the driving rain and mud, could have gone either way. But possibly the defining game was a very costly loss to Aquinas – a game that we should have won - and the boys learnt some very valuable lessons that I'm sure will stay with them for some years to come.

We finished the season 2nd on the table as a result of those 2 losses, but due to the BOP Union not playing semi finals, it was just going to be a straight playoff for 1st and 2nd. The Union ruled that while we finished 2nd, Aquinas would contest the final against Trident who went on to win the 1st Div BOP Title. It is fair to say the TNT players were left bitterly disappointed at the outcome – made worse by the fact that we beat the eventual winners by more than 40 points in the regular season fixture!

So, on to next year with a very clear focus and a group of young players who are now a year older, bigger, faster and stronger, and extremely motivated to set things right and prove that Nui Rugby is on the move.

Girls Rugby

What an amazing season our girls rugby has had this year! The hard work and determination of the girls has paid off which can be seen through our exceptional results. The senior team won the King Country 7's and 10's, with the juniors also finishing in the top 3. Both teams competed in the BOP 7's and 10's round with the seniors again coming out on top and the juniors not far behind. We then joined forces and competed the last round of the season in the BOP 1st XV grade. After a nail biting finals match, our girls brought it home for the second year in a row; we couldn't be prouder! Many girls have taken their skills elsewhere into King Country and Bay of Plenty rep teams, also excelling there. Sadly, we say goodbye to five Year 13s who have been key players in the teams, but I can't wait to see what the future has in store for them! All this wouldn't have been possible without the time and effort put in by our brilliant coaches, Dom Arnold and Josh Prisk, as well as our managers, Rowan Arnold and Rose Prisk. Here's to what's been a great season and let's finish it off with a bang at the Condors 7's!

Waka Ama

This year we fielded four teams. One J19 Girls (Hinemoana), one J16 Boys (Tamatāne) and two J16 Girls (Kōtiro & Teina).

Our first regatta was Te Puku o Te Ika Regionals held at Lake Okaraka on the 27 February. This was a good practice, giving us 3 weeks of hard work towards Nationals. This meant 3-4 training sessions a week with one 6am training to get us ready.

Our highlight of the year was the Secondary Schools Nationals being held at Lake Tikitapu from the 23 - 25 March. We were lucky enough to stay at the Blue Lakes Top 10 Motor Camp across the road, which meant we only had to get up and walk across the road everyday to race. All teams had rosters on cooking and we ate really well with our mama bears, Michelle, Kylee and Rhonda, making sure we were well looked after every day. Ngā mihi nui ki a koutou (a huge thanks to you all).

Well, all of the practice must have paid off as we had all three of our teams make the finals! Congratulations to Tamatāne for gaining Bronze in the 250 metre Bowl Sprint Final. Another big congratulations to Hinemoana for gaining Bronze in their 250 metre Bowl Sprint Final and Silver in their 500 metre Sprint turns Final.

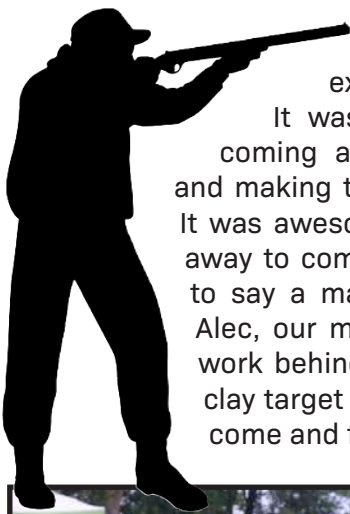

For all you wanna-be paddlers and for those who already have the love, let's get out on the water. We would love to see you there Tuesdays at 4pm and Saturdays at 9am, terms one and four. This way, next year, we can go for Gold!

See you on the lake!

Nā Whaea Steph

Clay Target Shooting

The Taupō-nui-a-Tia College Clay Target Shooting Team have coped extremely well with a disjointed year. It was great to see so many new faces coming along to the Sunday training shoots and making their way into the competition teams. It was awesome to see at least two teams going away to compete at events this year. I would like to say a massive thank you to Tim, our coach, Alec, our manager/driver, and Rachel for all her work behind the scenes. If you would like to try clay target shooting for yourself next year please come and find me, Mr Simm, in the D&I block!

Caylum Daniels

I started playing basketball when I was 8. At the time I was also playing rugby, but I kept getting injured so basketball became my sport. It's a sport I really enjoy and I've gotten pretty good at it. This year I went to the U17s NZ Camp. My family were really proud of me and I learned a lot from going. There's quite a bit of pressure because you are representing your country alongside other top players. I've also made the Reps team to represent Taupō for the Central North Island region and I'm pretty proud of that. My advice to everyone is to try and find a sport you think you'd love. It keeps you active and distracted from things people tend to do when they're bored, like smoking, drinking and excessive gaming. Sport is a much better use of your time.
